STATEMENT OF OBJECTS AND REASONS

The objects of this Bill are—(1) to remove a defect in the Indian Life Assurance Companies Act, 1912, in regard to the distribution of the assets of a life assurance company in liquidation, and (2) to provide for the collection of certain statistical information in respect of all classes of insurance business

2 Under the law as it now stands, it would be possible for the shareholders of a solvent life assurance company, by putting it into voluntary liquidation, to obtain possession of the surplus in the life fund and thereby deprive the policy-holders of what should be regarded as part of the real value of their policies This is possible because the liability of the company to the policyholders would be determined by a procedure which does not take into account the surplus held by a solvent company, which has been contributed by the policyholders The Bill inserts a section in the Act to provide that the surplus shall be allocated to shareholders and to policyholders in the proportion in which the profits were allocated during the ten years immediately preceding the commencement of the winding up

3 The Bill also requires every insurance company transacting any class of insurance business in British India to submit annual statements showing details of its business both in and outside British India

STATEMENT OF OBJECTS AND REASONS

In view of the obligations undertaken by the Government of India by ratifying the Geneva Dangerous Drugs Convention, 1925, and the existing confusion of the laws governing the traffic in dangerous drugs in British India, it has become necessary to enact a Central Dangerous Drugs Act The obligations that have been so undertaken by the Central Government are two-fold, firstly, in regard to the regulation of international traffic in all the drugs covered by the Convention, and, secondly, in regard to the regulation of the manufacture of, and internal traffic in, certain specified drugs, such as cocaine and morphine

2 The subject matter of the Bill is one that, under the Devolution Rules, is partly provincial but the Local Governments have assented to the passing of Central legislation on the subject in view of the special advantages of such legislation in the circumstances In addition to centralising and vesting in the Governor General in Council the control of certain operations relating to dangerous drugs, the proposed Bill renders uniform, and in some cases increases, the penalties for certain offences relating to dangerous drugs

7 The local Government may at any time expend the balance at its credit in the famine relief fund upon the relief of famine

8 When the balance in the famine relief fund exceeds the amount specified in paragraph 5, the local Government may utilise the excess to meet expenditure on protective irrigation works, in the grant of loans to cultivators either under the Land Improvement Loans Act, 1883, or under the Agriculturists' Loans Act, 1884, or for relief purposes, or in the repayment of advances from the Provincial Loans Fund, or to meet irrecoverable balances of loans under the said Acts or for relief purposes when such loans have been made from the Provincial Loan Account

Second Forecast of the Cotton Crops of Bengal, 1928-29.

(NOTE —On an average of the five years ending 1926 27, the area under the cotton crops in Bengal has represented some 0 2 per cent of the total area under cotton in India)

There are two crops—early and late The "early" crop is chiefly grown in the Chittagong Hill Tracts and the Tripura State and to a small extent in other districts The "late" crop is grown in Bankura and Midnapore

Character of the season.—As indicated in the first forecast the weather was not favourable at the sowing time owing to drought Although subsequent conditions were helpful for the growth generally, the early crop was somewhat affected by heavy rains in the Tripura State and in parts of Midnapore The present condition of the crop is reported to be fairly satisfactory on the whole

Sowings of late variety commenced in Midnapore under fair conditions

Area sown.—The area sown with the early crop is reported to be 77,095 acres this year as against 76,773 acres in the corresponding forecast of last year Of the late crop an area of 653 acres is reported to have been sown this year as against 803 acres reported in the corresponding forecast of last year

Second forecast of the Sugarcane Crop of Bengal, 1928-29.

(NOTE —On an average of the five years ending 1926-27, the area under sugarcane in Bengal has represented some 7 1 per cent of the total area under sugarcane in British India)

Character of the season.—As reported in the first forecast, owing to drought the weather was unfavourable both for planting and for the growth of early crop Subsequent conditions, however, improved the prospects generally, although heavy rains in the first part of August adversely affected the crop specially in some Eastern Bengal districts The present outlook is generally fair and a fairly satisfactory outturn is expected for the province on the whole

Area planted.—The total area planted with the crop for the province is reported to be 195,300 acres this year as against 208,800 and 208 900 acres reported, respectively, in the corresponding and final forecasts of last year

Outturn.—According to the estimates of District Officers the average outturn of the crop for the province works out at 77 per cent of the normal this year as against 83 per cent both in the corresponding and final forecasts of last year

Condition figure.—The condition figure for the cane crop is estimated at 77 per cent as against a ten years' average of 82 5 per cent This means that the condition of this year's crop is equal to about 93 per cent of the ten years' average

PART VI.

Bills introduced in the Council of State and Legislative Assembly, Reports of Select Committees presented to the Council and Assembly and Bills published under Rule 18 of the Indian Legislative Rules.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT

The following Bill was introduced in the Legislative Assembly on the 4th September 1928 —

L. A. Bill No 24 of 1928

A Bill to amend the Indian Trade Unions Act, 1926, for a certain purpose

Whereas it is expedient to amend the Indian Trade Unions Act, 1926, for the purpose hereinafter appearing, It is hereby enacted as follows — (XVI of 1926)

Short title

1. This Act may be called the Indian Trade Unions (Amendment) Act, 192

Substitution of new section for section 11, Act XVI of 1926

2. For section 11 of the Indian Trade Unions Act, 1926 the following section shall be substituted, namely — (XVI of 1926)

Appeal

11 (*1*) Any person aggrieved by any refusal of the Registrar to register a Trade Union or by the withdrawal or cancellation of a certificate of registration may, within such period as may be prescribed, appeal—

(*a*) where the head office of the Trade Union is situated within the limits of a Presidency-town or of Rangoon, to the High Court, or

(*b*) where the head office is situated in any other area to such Court, not inferior to the Court of an additional or assistant Judge of a principal Civil Court of original jurisdiction, as the Local Government may appoint in this behalf for that area

(*2*) The appellate Court may dismiss the appeal, or pass an order directing the Registrar to register the Union and to issue a certificate of registration under the provisions of section 9 or setting aside the order for withdrawal or cancellation of the certificate, as the case may be, and the Registrar shall comply with such order

(*3*) For the purpose of an appeal under sub-section (*1*) an appellate Court shall, so far as may be follow the same procedure and have the same powers as it follows and has when trying a suit under the Code of Civil Procedure, 1908 and may direct by whom the whole or any part of the costs of the appeal shall be paid, and such costs shall be recovered as if they had been awarded in a suit under the said Code (V of 1908)

(*4*) In the event of the dismissal of an appeal by any Court appointed under clause (*b*) of sub-section (*1*) the person aggrieved shall have a right of appeal to the High Court, and the High Court shall, for the purpose of such appeal, have all the powers of an appellate Court under sub-sections (*2*) and (*3*) and the provisions of those sub-sections shall apply accordingly'

STATEMENT OF OBJECTS AND REASONS

The existing section 11 of the Indian Trade Unions Act, 1926, which provides for appeals against the decision of the Registrar appointed under section 3 admits of some doubt in two respects, namely —

(*i*) It does not indicate clearly whether the first appeal lies to the Judge appointed for the area within which the Registrar's office is situated or to the Judge appointed for the area within which the head office of the trade union is situated The amendment is intended to make it clear that the latter is the competent court

(*ii*) It does not indicate clearly what Judge may be appointed to hear appeals in the Presidency towns and in Rangoon The amendment is designed to make it clear that in such areas the appeal lies to the High Court and that there is no second appeal

The opportunity has been taken to define clearly the powers of the High Court in second appeals

Patent to bind Crown

"21 (1) Subject to the other provisions of this section a patent shall have to all intents the like effect as against His Majesty the King as it has against a subject.

(2) Any Government department may, by itself or by such of its agents, contractors or others as may be authorised in writing by it at any time after the application, make, use or exercise the invention for the services of the Crown on such terms as may, either before or after the use thereof, be agreed on, with the approval of the Governor General in Council, between the department and the patentee, or, in default of agreement, as may be settled in the manner hereinafter provided And the terms of any agreement or licence concluded between the inventor or patentee and any person other than a Government department, shall be inoperative so far as concerns the making, use or exercise of the invention for the service of the Crown

(3) Where an invention which is the subject of any patent has, before the date of the patent, been duly recorded in a document by, or tried by or on behalf of, any Government department (such invention not having been communicated directly or indirectly by the applicant for the patent or the patentee), any Government department, or such of its agents, contractors, or others, as may be authorised in writing by it, may make, use and exercise the invention so recorded or tried for the service of the Crown free of any royalty or other payment to the patentee, notwithstanding the existence of the patent If in the opinion of the department the disclosure to the applicant or the patentee, as the case may be, of the document recording the invention, or the evidence of the trial thereof, if required, would be detrimental to the public interest, it may be made confidentially to counsel on behalf of the applicant or patentee, or to any independent expert mutually agreed upon

(4) In the event of any dispute as to the making, use or exercise of an invention under this section, or the terms therefor, or as to the existence or scope of any record or trial as aforesaid, the matter shall be referred to the High Court for decision, who shall have power to refer the whole matter or any question or issue of fact arising thereon to be tried, before a special or official referee or an arbitrator upon such terms as it may direct The Court, referee or arbitrator, as the case may be, may, with the consent of the parties, take into consideration the validity of the patent for the purposes only of the reference and for the determination of the issues between

the applicant and such Government department The Court, referee, or arbitrator, further, in settling the terms as aforesaid, shall be entitled to take into consideration any benefit or compensation which the patentee, or any other person interested in the patent, may have received directly or indirectly from the Crown or from any Government department in respect of such patent

Provided that, if the inventor or patentee is a Government servant and the subject-matter of the invention is certified by the Governor General in Council or Local Government to be connected with work done in the course of such service, any such dispute shall be settled by the Governor General in Council after hearing the inventor or patentee and any other person having an interest in the invention or patent

(5) The right to use an invention for the services of the Crown under the provisions of this section, or any provisions for which this section is substituted, shall include, and shall be deemed always to have included the power to sell any articles made in pursuance of such right which are no longer required for the services of the Crown

(6) Nothing in this section shall affect the right of the Crown or of any person deriving title directly or indirectly from the Crown to sell or use any articles forfeited under any law for the time being in force relating to customs or excise

Assignment of patent to the Secretary of State for India in Council

21A (1) The inventor of any improvement in instruments or munitions of war may (either for or without valuable consideration) assign to the Secretary of State for India in Council on behalf of His Majesty all the benefit of the invention and of any patent obtained or to be obtained for the invention, and the Secretary of State for India in Council may be a party to the assignment

(2) The assignment shall effectually vest the benefit of the invention and patent in the Secretary of State for India in Council on behalf of His Majesty, and all covenants and agreements therein contained for keeping the invention secret and otherwise shall be valid and effectual (notwithstanding any want of valuable consideration), and may be enforced accordingly by or on behalf of the Secretary of State for India in Council

(3) Where any such assignment has been made, the Governor General in Council may, at any time before the publication of the specification, certify to the Controller that, in the interest of the public service the particulars of the invention and of the manner in which it is to be performed should be kept secret

(4) If the Governor General in Council so certify, the application and specifications, with the drawings (if any) and any amendment of the specification and any copies of such documents and drawings, shall, instead of being left in the ordinary manner at the Patent Office, be delivered to the Controller in a packet sealed by authority of the Governor General in Council

(5) The packet shall, until the expiration of the term during which a patent for the invention may be in force, be kept sealed by the Controller, and shall not be opened save under the authority of an order of the Governor General in Council

(6) The sealed packet shall be delivered at any time during the continuance of the patent to any person authorised by the Governor General in Council to receive it, and shall if returned to the Controller be again kept sealed by him

(7) On the expiration of the term of the patent, the sealed packet shall be delivered to the Governor General in Council

(8) Where the Governor General in Council certifies as aforesaid after an application for a patent has been left at the Patent Office but before the publication of the specification the application and specifications, with the drawings (if any), shall be forthwith placed in a packet sealed by authority of the Controller, and the packet shall be subject to the foregoing provisions respecting a packet sealed by authority of the Governor General in Council.

(9) No proceeding by petition or otherwise shall lie for revocation of a patent granted for an invention in relation to which a certificate has been given by the Governor General in Council as aforesaid.

(10) No copy of any specification or other document or drawing by this section required to be placed in a sealed packet shall in any manner whatever be published or open to the inspection of the public, but, save as otherwise provided in this section the provisions of this Act shall apply in respect of any such invention and patent as aforesaid.

(11) The Governor General in Council may at any time waive the benefit of this section with respect to any particular invention, and the specifications, documents and drawings shall be thenceforth kept and dealt with in the ordinary way.

(12) The communication of any invention for any improvement in instruments or munitions of war to the Secretary of State for India in Council or the Governor General in Council or to any person or persons authorised by the Secretary of State for India in Council or the Governor General in Council to investigate the same or the merits thereof shall not, nor shall anything done for the purposes of the investigation be deemed use or publication of such invention so as to prejudice the grant or validity of any patent for the same."

Amendment of section 22 Act II of 1911

16. In section 22 of the said Act—

(a) in sub-section (1), for the words "the reasonable requirements of the public with respect to a patented invention have not been satisfied" the words "the demand for a patented article in British India is not being met to an adequate extent and on reasonable terms" shall be substituted,

STATEMENT OF OBJECTS AND REASONS

The existing Indian Patents and Designs Act, 1911 (II of 1911) was passed in 1911 and came into effect in 1912 Experience has indicated a number of directions in which amendments are required, and it is now proposed to revise it The amendments which it is desired to make are drawn from several sources A few of them are taken from the British Act of 1907 (on which the present Indian Act is based) and were omitted from the Indian Act as they were not considered necessary in the conditions then existing in India A considerable number are based on the provisions of the British Patents and Designs Act of 1919 which represented a fairly general revision of the 1907 Act in the light of the experience gained from its working Others are designed to remove defects which experience in India has revealed and a few drafting amendments have been added The amendments are explained in the detailed notes on clauses below

Notes on Clauses

Clause 2 (*a*)—The existing definition admits of some ambiguity, the proposed definition is based on that adopted in the British Act of 1919

(*b*)—The revised definition of "patentee" substitutes the registered owner for the beneficial owner, and follows the definition adopted in the United Kingdom in 1919

(*c*)—The amendment is designed to bring the definition into line with section 43 (*1*) of the Act

Clause 3—In the case of applications comprising more than one invention it is sometimes necessary to submit amended applications for each invention and the Controller has discretion under section 5(*1*) to grant to such separate applications the date on which they are amended If the sub-section is revised in the manner proposed, the Controller will have the power to grant the date of the original application to the separate subsequent applications

Clause 4.—Under section 8 of the Act the Governor General in Council can direct the Controller to refer the specification for enquiry after the acceptance of an application and before sealing a patent, but in the absence of opposition a patent cannot be refused as a result of such enquiry. The section has therefore proved to be valueless.

Clause 5.—Section 9(*1*) of the Act allows a period of 3 months within which a notice of opposition can be entered. This period has proved inadequate in some cases, and it is proposed to add to this period the time required to supply a copy of the specification. The amendment proposed follows a general legal principle.

Clause 6 (*1*).—The amendment will enable the Controller to proceed with an application for a patent when the applicant has assigned it to another party and refuses to proceed with the application or when disputes arise between joint applicants. It follows in substance the provision made in the United Kingdom Act of 1919.

Clause 6 (*2*) (*i*).—This is consequential to the amendment in clause 4.

Clause 6 (*2*) (*ii*).—The first amendment makes clause (*d*) of section 10(*2*) applicable to any case where a patent cannot be sealed within the time ordinarily allowed. The second amendment is based on an existing provision in the Patents and Designs Rules which has proved satisfactory.

Clause 7.—The object is to make the time when proceedings can be taken in respect of an infringement more definite.

Clause 8.—The object is to enlarge the provision contained in section 13 (*2*) so as to enable a patent to be given to the true inventor not merely in cases where the Court has revoked the patent, but also in cases where the Controller has refused a patent on account of the opposition of the true inventor.

Clause 9.—(*a*) This amendment will extend the period of future patents from 14 years to 16 years, following the recommendations of the Empire Patents Conference and the alteration made in the British law in 1919.

(*b*) This amendment has the effect of extending the period of existing patents from 14 to 16 years. It also makes necessary provision for the protection of licensees and other parties who might be adversely affected by the change.

Clause 10.—(*a*) The advertisement of a petition for extension of a patent before actually filing it as provided in section 15 (*1*) of the Act is unnecessary. The amendment will make it possible to call on the patentee to advertise his application after filing his petition.

(*b*) Fees are already charged for opposition to grants, amendments or restoration of patents, and it is desirable that a fee should be levied for opposition to an extension of a patent. A fee is levied in similar cases in the United Kingdom.

(*c*) In view of the enlargement of the original period of patents from 14 to 16 years, it is proposed, following the British Act of 1919, to reduce the terms for which extensions can be granted.

Clause 11.—This amendment introduces a new provision which will enable a patentee to add to his original patent improvements having the same term as the original patent without incurring the expense involved in taking out separate patents.

Clause 12.—Under section 18 a Court can permit a patentee to amend his specification only by way of disclaimer. It is proposed to extend the power of the Court so as to permit it to allow a patentee to amend his specification also by way of correction or explanation.

Clause 13.—This is a verbal amendment which follows the British Act, and makes the time for the grant of relief under section 19 of the Act more precise.

Clause 14.—The words deleted appear in a modified form in the proposed new sub-section (*4*) of section 63 (see clause 26).

Clause 15.—Under the existing Act Government have the right to use any invention either without payment or on such terms as they may consider reasonable. The new provision maintains the existing position where the patentees are Government servants and the patent is related to their official work, but gives patentees in other cases the right of reference to a Court of law for the settlement of the terms that are to be applicable when Government use their patent.

A new section has been introduced on the lines of section 30 of the United Kingdom Act of 1907 for the assignment of inventions relating to instruments, or munitions of war to Government, and for the maintenance of secrecy where necessary in respect of inventions and patents so assigned.

Clause 16.—The object of the first amendment is to make the main ground of application for the grant of compulsory license or the revocation of a patent more clear.

The amendment to section 22 (*4*) and the first two amendments to section 22(*5*) are consequential to the amendment to section 22(*1*).

As the present Act came into force in 1912, the words "before or after the commencement of this Act" in section 22 (*5*) are no longer necessary.

It is proposed to delete sub-section (*6*) of section 22 and add a new section in similar terms but applicable both to sections 22 and 23, *vide* clause 18.

Clause 17.—Under section 23(*2*) if the Governor General in Council is satisfied that the allegations contained in an application for the revocation of a patent are correct, he can make an order revoking the patent. The amendment is intended to empower him to grant a license or an exclusive license to the applicant if such remedies are justified in the circumstances of the case. The British Act also provides for such remedies.

Clause 18—The amendments to section 23 (2) necessitate the enlargement of the provision at present contained in section 22(6) so as to apply also to the grant of licenses under section 23

Clause 19—This is a drafting amendment

Clause 20—Under the existing law the Court is required in a suit for infringement to call in the aid of an assessor on the request of either of the parties to the proceedings The effect of the amendment will be that the Court will not be required to call in assessors unless all the parties agree, but it may if it thinks fit call in an assessor on the application of either party or without any application

Clause 21—The amendment provides for the possibility of granting relief in infringement actions in respect of valid claims in spite of the inclusion in the patent of invalid claims The object is to prevent patentees from being penalised for *bona fide* mistakes The amendment follows the provisions of the British Act of 1919

Clause 22—The object of these amendments is to extend the liability imposed on patentees to persons who have a beneficial interest in patents The amendments follow the English law

Clause 23—The amendment to clause (*a*) of section 44 brings the section into line with section 43(*1*)

The existing section 44 can be used to extend the copyright of a design if supplementary registration is effected in another class for the same design This was obviously not the intention The duration of the supplementary registration of a design should not exceed that of the original design, and the amendment to clause (*b*) of section 44 provides for this

Clause 24—The existing law is obscure as to the extent to which parties are entitled to secure cancellation of designs The proposed section 51A, which is based on the analogy of patents, will make the position clear

The object of the new section 51B is to bring the law relating to designs in so far as rights against the Crown are concerned into line with the law relating to patents

Clause 25—This is consequential on the insertion of the new section 51A

Clause 26(a)—The alterations in sub-sections (*1*) and (*2*) of section 63 are essentially of a drafting character

The object of the new sub-section (*4*) of section 64 is to prevent the admission in evidence, save in exceptional circumstances, in proof of the title to a patent or design, of a document or instrument not entered in the register of the Patent Office This sub-section follows the provisions of the English law of 1919 and replaces the provision at present contained in section 20(*4*) (See note on clause 14)

Clause 27—The object of the amendment is to make it clear that the section provides only for applications which relate to the rectification of errors in the register and that questions regarding the merits of patents or designs cannot be raised in connections with applications under it It is undesirable that applications of this character should go before the High Court in the first instance, and it is proposed to make the Controller the competent authority to dispose of them, an appeal lying from his order to the High Court

Clause 28—This is based on the British Act and provides for an appeal to the Governor General in Council against the Controller's decision

Clause 29—Under section 65 of the Act the Controller has power to award costs in any proceedings before him The clause will enable the Controller or the Court dealing with parties offering opposition or applying for revocation or preferring appeals to require security for the cost of proceedings, where they do not reside or carry on business in British India

Clause 30 (1)—Under the existing Act fees are payable in cash The clause will enable fees to be paid through treasuries or the Imperial Bank, if necessary

The new sub-clause (*iii*) is consequential on the insertion of the new section 21A, *vide* clause 15

Clause 30 (2)—Under section 77(*2*) of the Act all rules are made after previous publication This is not considered desirable in the case of rules made for ensuring secrecy of patents relating to munitions of war The new provision follows the British Act

Clause 31—The first amendment which extends the period for applications under reciprocal arrangements in the case of designs is based on a recommendation made by the last International Conference at the Hague A similar change has recently been made in Great Britain

The second amendment will enable reciprocal arrangements to be made between British India and Indian States

Clause 32—The existing scale of fees has remained unchanged since 1912 Only valuable patents are kept on for a long number of years, and in such cases the amount of the fees is normally small compared with the profits earned A slight increase in the fees has been proposed for the 9th, 13th and 14th years of a patent It is proposed to fix the fees for the 15th and 16th years of patents at Rs 150 (*vide* clause 9) A similar rate has been prescribed for extended patents and for new patents granted after the original patents have expired

STATEMENT OF OBJECTS AND REASONS

The outbreak of industrial unrest on a large scale was a feature of the period succeeding the close of the War and led the Government of India to explore the possibility of providing some machinery for the settlement of industrial disputes The inquiries made with this purpose in 1920 led to the conclusion that in the conditions then existing, legislation for this purpose was not likely to be effective

2 The succeeding years saw a distinct change in the position by reason of the growth of organizations of industrial workers and of the increasing influence exercised by public opinion on the course of disputes And in 1924 the Government of India prepared a draft Bill "for enabling the investigation and settlement of trade disputes" and circulated it in order to ascertain the views of those directly interested and of the public generally on the subject As a result of the inquiries made in 1924 25 and the experience which has become available since that period, the Government of India are satisfied that legislation for the prevention and settlement of trade disputes is likely to prove of considerable value, and the present Bill has been prepared for this purpose

3 The main part of the Bill falls into three parts Clauses 3 to 14 relate to the establishment of tribunals for the investigation and settlement of trade disputes This part of the Bill is based generally on the British Industrial Courts Act of 1919, and its detailed provisions are adopted for the most part from clauses in that Act The main difference is that, whereas the British Act sets up a Standing Industrial Court, the Conciliation Boards which the Bill proposes to establish are intended to be appointed *ad hoc* like the Courts of Inquiry, in order to deal with particular disputes The object of Courts of Inquiry which will ordinarily be composed of persons having no direct interest in the dispute will be to investigate and report on such questions connected with the dispute as may be referred to them The object of Boards of Conciliation, which will ordinarily include representatives of the parties to a dispute, will be to secure a settlement of the dispute Both Courts of Inquiry and Boards of Conciliation will be able to enforce attendance of witnesses and the production of documents, and their reports are to be published Neither party will be under any obligation to accept the findings of the Court or the advice of the Board, and in cases where the dispute is not brought to an end during the deliberations of the tribunal that has been appointed, reliance is placed on the force of public opinion which will be enabled by the publication of the report of the tribunal to arrive at just conclusions on the merits of the dispute

4 The second part of the Bill consists of clause 15 which relates to public utility services "Public utility services" is defined in clause 2 (f), and it will be observed that, in accordance with this definition, clause 15 is only applicable to such railway services as have been notified by the Governor General in Council The clause makes it a penal offence for workers employed on monthly wages in public utility services to strike without previous notice, and also provides heavier penalties for persons abetting such an offence The clause is based on the principle that persons whose work is vital to the welfare of the community generally should not be entitled to enter into a strike before sufficient time has been given to examine the merits of their grievances and to explore the possibilities of arriving at a peaceful settlement Provisions of a somewhat similar type already exist in the Indian Post Office Act and in a number of Municipal Acts in India, and the principle is one which is widely accepted in other countries

5 Clauses 16 to 20 contain certain special provisions relating to illegal strikes and lock-outs These clauses follow closely the provisions of sections 1, 2 and 7 of the British Trade Disputes and Trade Unions Act, 1927 They are applicable only in the case of strikes and lock-outs which satisfy both of two conditions, in the first place the strike or lock-out must have other objects than the mere furtherance of a trade dispute within the industry to which the strikers or employers belong, and, in the second place the strike or lock-out must be designed to coerce Government either directly or by inflicting hardship on the community If these conditions are satisfied the strike or lock-out becomes illegal Persons furthering the strike or lock-out are liable to punishment and are deprived of the protection granted to them by the Indian Trade Unions Act while persons refusing to take part in it are protected from trade union disabilities to which they might otherwise be subjected

STATEMENT OF OBJECTS AND REASONS

The Workmen's Compensation Act, 1923, came into force on the 1st July 1924 Since then a number of amendments have suggested themselves or have been proposed by Commissioners for Workmen's Compensation and Local Governments Some of the latter proposals involve the modification of the principles underlying the present Act or of its more important features So far as these are concerned, the Government of India consider it advisable to consult Local Governments and the public generally before forming conclusions For the present it is proposed to limit the revision of the Act to the amendment of those sections or parts of sections which are admittedly defective and to the introduction of changes which are likely to raise no important controversial points and which will be generally recognised as improvements The proposed amendments are explained in the Notes on Clauses below

Notes on Clauses

Clause 2—The definition of 'workman' in existing section 2 (*1*) (*n*) of the Act includes persons who are employed by a Railway administration in connection with the service of a railway but excludes persons employed on similar work by a person fulfilling a contract with a Railway administration It was never intended that contractors' employees should be outside the scope of the Act on Railways, they come within the Act in all the other classes of employment to which the law extends The amendment seeks to remove an obvious defect in the law

Clause 3—Compensation to workmen employed in the construction, repair or demolition of a building or bridge was originally restricted on grounds of expediency to cases of death and permanent total disablement as it was feared that any general application of the Act to the building trades might lead to administrative difficulties Experience of the working of the Act has shown that no such result need be anticipated, especially in view of the restrictions imposed by clause (*vi*) of Schedule II of the Act The amendment seeks to remove the discrimination contained in the existing proviso (*c*) to sub-section (*1*) of section 3 of the Act against such workmen

Clause 4—(1) Cases have been reported in which the application of the existing section 5 (*b*) gives results which are wide of the true average wages in the case of workmen whose period of service immediately preceding the accident is less than a month The amendment seeks to remove this anomaly

(2) The existing section 5 prescribes the manner in which the monthly wages of a workman shall be calculated for the purpose of section 4 The amendment is designed to extend the same method to the calculation of wages for the purposes of clause (*n*) of sub-section (*1*) of section 2 and of sub-section (*3*) of that section

Clause 5—Sub-section (*1*) of section 8 as at present worded is liable to misinterpretation The amendment seeks to clarify the real intention which is that all payments to dependants of the deceased workman must be made through the Commissioner and not directly to the dependants The opportunity has been taken to provide that any lump sum payable as compensation to a minor should also be [illegible] d similarly through the Commissioner The revised section further provides for—

(*a*) the protection of lump sums payable to a woman or to a person (other than a minor) under any legal disability,

(*b*) the prevention of deposits of trivial amounts, and

(*c*) the investment of sums payable as compensation to women

It is also proposed to remove the apparent inconsistency between the existing sub-section (*5*) and the existing sub-section (*2*) and between sub-section (*1*) which might be read as requiring the Commissioner to pay the full sum to a dependant, and sub-section (*4*) which enables him to deduct funeral expenses

Clause 6 —The amendment is designed to vest Commissioners with the same powers in respect of the prosecution of persons for perjury as are possessed by Civil Courts generally

Clause 7 —The existing sub-section (*1*) of section 28 provides *inter alia* for the registration of agreements which settle the compensation payable to persons under legal disability The provision is not necessary in the case of persons who are over 15 years of age and suffer from no other legal disability, the Act treats such persons as adults for purposes of compensation The amendment also provides for the repeal of proviso (*b*) which has in practice remained a dead letter

Clause 8 —(1) The application of the Workmen's Compensation Act to dock labourers, etc , is governed partly by existing clause (*v*) of Schedule II of the Act and partly by a notification issued by the Governor General in Council under section 2 (*3*) of the Act The two provisions are not entirely consistent, as the former applies only to places where steam, water or other mechanical power or electrical power is used, whereas the latter imposes no such restriction The revised clause consolidates the provisions of the existing clause (*v*) and of the notification and eliminates the condition relating to the use of power The revised clause will now include all persons employed for the purpose of loading, unloading, fuelling, constructing, repairing, demolishing, cleaning or painting a ship irrespective of the place where the ship may be

(2) The amendment to clause (*vii*) of this Schedule is designed to include in the scope of the Act persons employed in setting up, repairing, maintaining or taking down a post or standard supporting an overhead electric cable Persons employed in setting up, etc , posts supporting telegraph and telephone lines are already included in the existing clause (*vii*), and the omission of the former class of persons was unintentional

(3) Certain classes of workmen who have been brought within the scope of the Act by notifications issued under sub-section (*3*) of section 2 of the Workmen's Compensation Act have also been included in the Schedule

DARJEELING, THE 19TH OCTOBER 1928

RESOLUTION—No 631 T A I

Minister-in-charge The Hon'ble Nawab Musharruf Hossain, Khan Bahadur

The present Calcutta Licensing Board was constituted by Resolution No 6217 Ex , dated the 25th November 1927, with the President of the Temperance Federation as Chairman and including 2 other representatives of the temperance party

The fact that it included no representative of its interests was the subject of a protest by the liquor trade, and Government, after careful consideration, decided that, with the Board constituted as it was, it was fair that the trade also should be represented, and issued orders accordingly Thereupon, all the members of the temperance party tendered their resignations

The Governor, acting with his Ministers was at first reluctant to accept these resignations, as he recognised the valuable work that had been done by these gentlemen in the past but after giving his anxious consideration to the unsatisfactory situation which has arisen, he has come to the conclusion that under the circumstances the proper course is to dissolve the existing Board as from the date of this resolution

It has become apparent that to ensure the efficient working of the Board it will be necessary to re-organise it on somewhat different lines It has not yet, however, been possible to come to a final conclusion in the matter, but a new Board will be formed as soon as possible Meanwhile the Commissioner of Excise is being instructed that no new licenses are to be issued until a new Board is formed so that the Board shall not be deprived of that control of licensing work in Calcutta which it has hitherto been the policy of Government to vest in it

The period which the report covers having been changed from the calendar to the financial year, the present report covers a period of 15 months, viz from 1st January 1927 to 31st March 1928

Mr G P Hogg held charge of the Department from 1st January to 23rd May 1927, and Mr A T Weston, Deputy Director of Industries, held charge, in addition to his own duties, of the post of Director of Industries for the rest of the period under review Dr R L Datta Industrial Chemist, Mr A N Sen Inspector of Technical and Industrial Institutions, and Mr S C Mitter, Industrial Engineer, held charge of their respective duties throughout the year Mr E Hoogewerf, Principal of the Government Weaving Institute Serampore, was on leave, for 8 months from 19th April 1927 and Mr Alauddin J Nathani acted in his absence

2 **Research.**—The general equipment of the Industrial Research Laboratory has been completed and useful work was done therein The publicity which has been given to its existence has resulted in many references being made to it for advice and information The Hon'ble Minister is glad to notice that a Sub-Committee of the Advisory Board of Industries is giving special attention to the laboratory in order to ensure that its work proceeds on thoroughly practical lines The Department can now claim that it is in a position to give all the technical and economic information that is required by anyone who wants to set up in the match industry As the Director of Industries observes, it now remains for private enterprise to come forward and make use of the information his Department has compiled

Similar useful results have been obtained in respect of the manufacture of soap and shellac and of the bleaching of hosiery

It may be claimed that success has attended the conch-shell cutting machine referred to in last year's review, in that 2 machines have been purchased and are in course of erection by the Co-operative Union in Shankari Bazar at Dacca

Useful work continued to be done at the Bengal Tanning Institute, and the Director of Industries gives a long list of investigations which are going on at that institution which will no doubt in time bear fruit That there are great possibilities in this line in Bengal, a mere consideration of the exports of raw hides and skins will show For India exports annually to other countries raw hides and skins to the value of some 71 million rupees, and imports annually about 4 million rupees worth of leather manufactures

3 **Demonstration and propaganda.**—The bulk of the demonstration work undertaken was, as is natural, connected with weaving The parties were carefully organised and supervised, and exhibits were sent to various exhibitions and shows, including the Eastern Bengal Railway Demonstration Train Better arrangements were also made, so that it became possible for the public, before whom demonstrations were made, to buy the improved appliances on the spot before their enthusiasm evaporated But it still remains to be seen whether the public will actually make use of these facilities Demonstrations of tanning processes were carried out by two touring parties, who visited various districts, gave demonstrations at exhibitions, and also participated in the Eastern Bengal Railway Demonstration Train It is gratifying to note that the Director of Industries considers the results to be very encouraging, and that there are signs of interest not only among those who are hereditarily connected with the leather trade, but among *bhadralok* as well

4 **Technical education.**—The Calcutta Technical School has entered on its third year of existence It is regrettable that the Corporation still withholds the grant so long expected from it, thereby seriously restricting the activities of the school The average number of apprentices on the roll in any month was 145 It is disappointing that only one apprentice appeared at the annual examination of the Board of Control for Apprenticeship Training, an examination which was instituted in order to set up a standard of efficiency which it was hoped would be of value to employers in selecting assistants

Work in the various technical schools and institutions proceeded on normal lines Fifteen additional weaving schools were opened during the year under report, one being the Silk Weaving and Dyeing Institute at Berhampore, and the rest being peripatetic weaving schools The Berhampore Institute commenced its first session from the 18th July 1927 and most of its staff were appointed during the year,

An improvement in the administration of this side of the Department is expected to ensue from the transfer of the work of supervision of all mufassal weaving schools and demonstration parties from the Principal, Government Weaving Institute, Serampore, to the office of the Director of Industries This was decided on during the year and took effect from the 1st April 1928 It was a change the need of which had been for some time manifest, it being obvious that the work could be carried out far more satisfactorily from the Director of Industries' office at the headquarters of the Department The work of the Serampore Weaving Institute should also benefit

It will be possible to give instruction at the Serampore Weaving Institute on more extensive and modern lines when the buildings at present under construction are completed Seven students out of 12 obtained the diploma at the last Final Examination

At the Bengal Tanning Institute an average of 4 apprentices were under training during the year Eight out of 10 who had completed their 2-year course obtained the diploma. The history of the subsequent careers of those who have previously passed out is, on the whole, encouraging

Two Technical Scholarships for training in England one for Ferro-concrete Construction and one for Pottery, were awarded during the year

There can be little doubt that more money can be productively spent on the development of industries, on which in the opinion of the Hon'ble Minister, the prosperity of the country very largely depends It is regrettable that the restricted resources at the disposal of Government have hitherto made a more generous provision on this account impracticable

5 **Home industries.**—An important step was taken towards the close of the year when Government decided to discontinue its annual grant-in-aid, which in 1926-27 amounted to Rs 10,000, to the Bengal Home Industries Association The reason for this step was that this Association, for many years the recipient of aid from Government, had failed to achieve

No 569G —In supersession of the notification of the Government of India in the Foreign and Political Department No 1367-G, dated the 10th August 1915, the following revised Foreign and Political Department Memorial Rules are published for general information —

I —MEMORIALS, ETC, ADDRESSED TO THE GOVERNOR-GENERAL IN COUNCIL

1 Every memorial must be submitted to the Political Officer of the State, within whose jurisdiction the subject matter has arisen, accompanied by a copy of the order appealed against and by a letter requesting its transmission to the authority to which it is addressed

2 Memorials may be transmitted either in manuscript or in print, but must, with all accompanying documents, be properly authenticated by the signature of the memorialist on each sheet

3 Subject to the exceptions hereinafter contained, every memorial received which conforms to the above rules, should be forwarded by the Political Officer through the usual official channel, with a concise statement of material facts, and, unless there be special reasons to the contrary, an expression of opinion

4 Memorials, together with their accompanying documents, should be in English If the accompanying documents must necessarily be forwarded in the vernacular, an English translation should be appended, which should be attested by the signature of the memorialist on each sheet

N B —The transmitting officer should examine such translations and, if they are found to be incorrect or faulty notice the fact in sending on the memorial

5 Every memorial should be accompanied by copies of all the orders passed in the case by the authorities who have dealt with it in India

6 Local Governments, Administrations, and Political Officers in direct subordination to the Foreign and Political Department of the Government of India are vested with discretionary power to withhold memorials addressed to the Governor General in Council in the following cases —

(1) When the memorial is illegible or unintelligible

(2) When the memorial contains language which, in the opinion of the authority who would otherwise forward it, is disloyal, disrespectful, or improper

(3) When a previous petition of the memorialist (which term includes a rejoinder submitted by the memorialist in answer to a previous petition of some other party) has been disposed of by the Secretary of State for India in Council or the Governor General in Council, and the petition discloses no new facts or circumstances which afford grounds for a reconsideration of the case

(4) When the memorial relates to a matter which is within the competence of the Local Government, Administration, or Political Officer to dispose of and no application has previously been made to such Government, Administration, or Political Officer for redress

(5) When the memorial is an appeal preferred more than six months after the date on which the memorialist was informed of the orders against which he appeals, provided that the Local Government, Administration or Political Officer, as the case may be, may, at their or his discretion, extend the period to twelve months, if the delay will facilitate a settlement of the dispute, or other good cause is shown

(6) When the memorial refers to matters in which the memorialist is not personally interested

7 Provided they do not contravene the conditions specified in the preceding section, memorials which are appeals against orders passed by Local Governments, Administrations, and Political Officers in direct subordination to the Foreign and Political Department of the Government of India, in the exercise of political control in territories not included in British India, shall be forwarded, except in the following cases in which a discretionary power to withhold the memorials may be exercised —

(1) When the order appealed against has been passed by the Local Government, Administration, or Political Officer as a recognised Court of Appeal

in regard to a judgment or order of any Court of civil or criminal jurisdiction established or continued by the Governor-General in Council in such territories

(2) When the order appealed against is a mere refusal to exercise political control in regard to a judgment or order of any special court established by the Governor-General in Council in such territories, from which court there is, by its constitution, no appeal, though a general political control over it is declared or understood to exist

(3) When the order appealed against is a mere refusal to interfere in a matter of purely internal policy with the action or orders of the Ruler of an Indian State, of which the memorialist is a subject provided that the State is one in which it is not customary for the British Government to intervene in matters of internal policy, and that the matter complained of does not disclose a state of misrule so gross that the Paramount Power would be called upon to interfere

N B—This rule applies to a temporary administration established in an Indian State by the Governor-General in Council when the temporary administration is appointed to exercise the same powers and occupy the same position as the State Administration which it supersedes

Note—Memorials which are analogous to applications under Chapter XXIX of the Criminal Procedure Code and appeals for the exercise of the prerogative of pardon must be transmitted But this provision will not affect the procedure in regard to memorials from persons under a capital sentence, prescribed in the Foreign and Political Department circular letter No 45 G, dated the 12th January 1917

8 Memorials from persons* in such territories which are not covered by these rules may be treated under the memorial rules of the Home Department when they are applicable

9 Memorialists who desire to appeal against the orders of the Government of Bombay, in political cases shall have the option of addressing such appeals either to the Governor-General in Council or to the Secretary of State for India in Council, and such appeals shall be forwarded subject to the provisions of rules 6 and 7 This rule shall not apply to—

(*a*) Giras cases In these cases the decision of the local Government shall ordinarily be considered as final, and no appeal shall lie to the Governor General in Council, an appeal to the Secretary of State for India in Council only being admissible with the permission of the local Government which should be previously obtained,

(*b*) Memorials of the class specially reserved in rule III of the rules published with the Home Department Notification No F-472 II I 23, dated the 21st June 1924,

(*c*) Memorials which involve questions affecting the status, dignity or powers of a Ruling Chief or his relations with the Paramount Power (including questions of succession or adoption) and with other Chiefs

In the case of (*b*) and (*c*), memorials must be addressed to the Governor General in Council

10 The Agent to the Governor General, Western India States, is vested with discretionary power to withhold memorials addressed to the Governor General in Council in the following cases —

(*a*) When the memorial is an appeal against an order passed by himself under rule 18 of the Giras Court Rules published in Western India States Agency Notification No 21, dated the 17th April 1926

(*b*) When the memorial is an appeal against an order passed by himself under rule 6 (*a*) of the Political Courts Rules published in the Western India States Agency Notification No 30, dated the 26th April 1926, and the case is not one which should, in his opinion, be certified as fit for a further appeal

II —MEMORIALS, ETC, ADDRESSED TO HIS MAJESTY THE KING-EMPEROR OF INDIA, OR TO THE SECRETARY OF STATE FOR INDIA IN COUNCIL

1 Every memorial must be submitted to the Political Officer of the State within whose jurisdiction the subject matter has arisen, accompanied by a copy of the order appealed against and by a letter requesting its transmission to the authority to which it is addressed

2. Memorials may be transmitted either in manuscript or in print, but must with all accompanying documents, be properly authenticated by the signature of the memorialist on each sheet

3 Subject to the exceptions hereinafter contained every memorial received which conforms to the above rules should be forwarded by the Political Officer through the usual official channel with a concise statement of material facts, and unless there be special reasons to the contrary, an expression of opinion

**E g*, petitions from Government servants about dismissal, pensions, etc

4 Memorials together with their accompanying documents, should be in English If the accompanying documents must necessarily be forwarded in the vernacular, an English translation should be appended, which should be attested by the signature of the memorialist on each sheet

N B—The transmitting officer should examine such translations and, if they are found to be incorrect or faulty, notice the fact in sending on the memorial

5 Every memorial should be accompanied by copies of all the orders passed in the case by the authorities who have dealt with it in India.

6 Local Governments, Administrations, and Political* Officers in direct subordination to the Foreign and Political Department of the Government of India are vested with discretionary power to withhold memorials addressed to His Majesty or to the Secretary of State in Council in the following cases —

(1) When the memorial is illegible or unintelligible

(2) When the memorial contains language which, in the opinion of the authority who would otherwise forward it, is disloyal, disrespectful, or improper

(3) When a previous petition of the memorialist (which term includes a rejoinder submitted by the memorialist in answer to a previous petition of some other party) has been disposed of by the Secretary of State in Council and the petition discloses no new facts or circumstances which afford grounds for a reconsideration of the case

(4) When the memorialist has not previously appealed to the Governor-General in Council (or the Government of Madras, Bombay or Bengal, as the case may be) and received the decision of the Governor-General (or Governor) in Council upon it

(5) When the memorial is an appeal preferred more than six months after the date on which the memorialist was informed of the orders against which he appeals provided that the Local Government, Administration, or Political Officer as the case may be, may at their or his discretion extend the period to twelve months, if the delay will facilitate a settlement of the dispute, or other good cause is shown

(6) When the memorial refers to matters in which the memorialist is not personally interested

(7) When the memorial is in effect an appeal in a boundary case between Indian States in which the decision, original or appellate, of the Political Officer has been passed after enquiry on the spot and confirmed on appeal by the Local Government, Local Administration or the Government of India as the case may be

(8) Cases which turn entirely on questions of fact, where the Political Officer and Local Government or Local Administration are in agreement

7 Provided they do not contravene the conditions specified in the preceding section memorials which are appeals against orders passed by the Governor-General in Council (or Governor in Council in Madras, Bombay or Bengal, as the case may be) in the exercise of political control in territories not included in British India, shall be forwarded, except in the following cases in which a discretionary power to withhold the memorials may be exercised —

(1) When the order appealed against has been passed by the Governor-General in Council or the Government of Madras, Bombay or Bengal (as the case may be), as a recognised Court of Appeal in regard to a judgment or order of any Court of civil or criminal jurisdiction established or continued by the Governor General in Council in such territories

* Political Officers who are not Heads of Local Administrations may not exercise discretionary power to withhold memorials of the kind referred to in clauses (7) and (8) of Rule 6

(2) Memorials which contain a prayer for the exercise of the prerogative of pardon must be transmitted by the Governments of Madras, Bombay and Bengal to the Governor-General in Council who will transmit them to the Secretary of State for India in Council unless the Governor-General thinks fit to grant the prayer in virtue of his authority to exercise this prerogative on His Majesty's behalf The provision of this note will not affect the procedure in regard to memorials from persons under a capital sentence, prescribed in the Foreign and Political Department circular letter No 45 G, dated the 12th January 1917

8 Memorials from persons,* in such territories which are not covered by these rules, may be treated under the memorial rules of the Home Department when they are applicable

Chapter V.—For Chapter V, the following shall be substituted, namely —

"Chapter V—Acting Allowances—General Rules.

SECTION I —DEFINITIONS AND LIMITATIONS

86. " Acting Allowance " is the allowance given, in addition to substantive pay (if any), to an officer who is appointed to officiate in an appointment of which either there is no holder or of which the holder is an absentee

1 A Local Government may, at its discretion, allow *acting* appointments to be made in place of officers ordered or permitted to undergo a course of training It may delegate its power under this rule to Heads of Departments

2 A Local Government may also issue general orders authorising acting appointments to be made in the place of any specified class of officers under training

87. In certain cases, as defined in Articles 89 to 92, it is permissible to appoint an officer " provisionally " or " substantively *pro tempore* ' instead of appointing him to officiate

88. It is also permissible, instead of appointing an officer to officiate to appoint him to be in charge of the current duties of the vacant appointment In such cases a " charge allowance " is given as explained in Articles 94, 95, 165 to 169 A and 174-A

Provisional Appointments.

89. If an officer is transferred to duty which is such that he retains no connection with his own appointment and which there is reason to believe will not terminate within three years, the Local Government may, if it thinks fit suspend his lien upon his own appointment altogether, and fill up that appointment substantively, reserving only the right to reverse the arrangements thus made in case the absent officer at any time reverts to his original appointment

Note — [A Local Government may delegate its powers under this Article to Heads of Departments in respect of officers whom they can appoint]

Substantive pro tempore Appointments.

90. An officer to whom the rules in Section I of Chapter VI do not apply may be appointed substantively *pro tempore* on full pay, without prejudice to the lien of the absentee, in place of an absentee who draws no part of the pay of the appointment or of an officer on deputation, provided that when the absence is due to a temporary appointment or the officer is on deputation, the temporary appointment or deputation lasts for six months or more

The full pay of an officer thus appointed substantively for a time may, in like manner and upon the same condition, be given to a substitute similarly appointed The status of an officer appointed substantively *pro tempore* under this Article is that of an Acting officer, and if he is appointed to officiate in a higher appointment, his salary is reckoned upon his substantive pay proper and not upon the pay of the appointment he held substantively *pro tempore*

Note 1—[This rule is subject to the proviso that the salary of an officer who is substantive *pro tempore* in one appointment and who is appointed to officiate in a higher appointment shall not be less than that which he drew while holding the substantive *pro tempore* appointment While appointed to officiate in a higher appointment or in a higher class the officer does not cease to hold the former appointment substantively *pro tempore* unless expressly reverted, and unless the officiating appointment is expected to last for at least three months the authority appointing him may not revert him to his substantive appointment merely for the purpose of appointing another officer to the substantive *pro tempore* appointment.]

Note 2—[Full pay is not to be drawn under Articles 89 and 90 as a matter of course, or unless the officer claiming it has been formally appointed " provisionally " or " substantively *pro tempore* " by competent authority]

91. An officer appointed to act in another office is not an absentee within the meaning of Article 90 unless the full pay of that office is available and he is appointed to it substantively *pro tempore*

92. An absentee who receives absentee allowances draws, within the meaning of Article 90, "part of the pay of his appointment", and that Article is not to be construed as conflicting with Article 214

93. *Omitted*

Charge Allowances.

94. An officer appointed to be in charge of the current duties of an office independently, *i e*, under orders which expressly relieve him of the charge of his own office, is entitled to a charge allowance of three-quarters of the acting allowance which would be admissible to him if he were appointed to officiate in the office An officer cannot be thus appointed to be in charge of a "grade"

Note—[The rules laid down in Articles 168 and 169 apply here also]

95. The Local Government may, if it thinks fit, assign to the officer a charge allowance of less than the amount thus admissible, and, on the other hand, if it thinks this amount too small, may grant him, for special recorded reasons, the full acting allowance Charge allowance under this Article must never exceed what an officer would draw as acting allowance if appointed to officiate in the appointment

Note—[The rules laid down in Articles 168 and 169 apply here also]

1 The Local Government may delegate its power under this Article to the Head of a Department or Commissioner of a Division

SECTION II—MAXIMUM AND MINIMUM SALARIES

96. The minimum salary of an officiating officer is half the pay of the appointment and, except in cases where the rules in Section I of Chapter VI apply, the maximum salary is the pay of the appointment

97. *Cancelled*

SECTION III—PRIVILEGE LEAVE VACANCIES

98. As a general rule, the duties of an officer absent on Privilege leave taken separately and not combined with other leave under Article 232 shall be discharged by another officer in the same station or district Only in exceptional cases where there is absolutely no officer available on the spot, can the transfer of an officer from another station or district to act in consequence of the absence of an officer on Privilege leave be allowed In the case of appointments held by members of the Indian Civil Service or a Commission, if a member of that Service or Commission is not available on the spot, a Provincial Service officer should be placed in charge of the vacant appointment

99—103. *Cancelled*"

Chapter VI.—For Chapter VI, the following shall be substituted, namely —

"Chapter VI.—Acting Allowances—Rules for Calculation.

SECTION I—IMPERIAL SERVICES AND SERVICES ORGANISED ON A TIME-SCALE BASIS

104. The rules in this Section apply to all Imperial Services and to any other Service, except the Indian Finance Department, which is organised on a time-scale basis

Note—[The officiating promotion and acting allowances of officers of the Indian Finance Department are regulated by the rules which were in force prior to 11th September 1920]

105. Subject to the provisions of Article 162, an officer holding one appointment substantively, who is appointed to officiate in another, shall not draw acting allowance unless the officiating appointment involves the assumption of duties or responsibilities of greater importance or of a different character This condition is not fulfilled if the two appointments are on the same scale of pay

Note—[Two appointments are said to be on the same scale of pay when they fall within a cadre or a class in a cadre, such cadre or class having been created in order to fill all appointments involving duties of approximately the same character or degree of responsibility in a service or establishment or group of establishments, so that the pay of the holder of any particular appointment is determined by his position in the cadre or class and not by the fact that he holds that appointment]

Exception—Officers who on 10th September 1920 were in receipt of acting allowances as officiating in the selection grade of Judges may be permitted by the Local Government to continue to draw acting allowances for so long as they officiate continuously, and a similar concession may be given to officers in other services similarly situated

106. Subject to the provisions of Articles 105 and 108, the acting allowance of an officiating officer will be the difference between his pay and the pay of the appointment in which he officiates It, however, his substantive pay is greater than the pay of the appointment in which he officiates, he will continue to draw his substantive pay

107. An officer officiating in an appointment on a time-scale draws as initial salary the stage of the time-scale next above his substantive pay, if any, provided that if he has previously officiated in the appointment or in an appointment in the same cadre on the same time-scale, his initial salary shall not be less than the salary which he drew when last officiating All officiating service in any stage of the time-scale, whether continuous or not, counts for increment in that stage If the salary drawn during any period of past officiating service was intermediate between two stages of the time-scale, that period will count for increment in the lower of the two stages If the substantive pay of the officer at any time exceeds the salary calculated under this rule, he will draw salary equal to that substantive pay

Note—[This Article does not apply to any time-scale sanctioned by the Secretary of State in Council in so far as it is inconsistent with the terms specially so sanctioned for such time-scale]

108. A Local Government may grant to an officiating officer an acting allowance less than that admissible under these rules

109—137. *Cancelled*

SECTION II—OTHER SERVICES

138. The following rules are applicable to officers in Civil employ whose cases are not provided for in Section I of this Chapter, or by rules peculiar to the Services concerned, such as—

(1) Lieutenant-Governors and Members of Council (*see* Chapter XXII)

(2) Judges of the High Courts (see Chapter XXIII)

(3) Ecclesiastical Officers (see Chapter XXVII)

(4) Law Officers (see Chapter XXXI)

139—139-A. *Cancelled*

Officers having a Substantive Appointment.

140. An officer with a substantive appointment, officiating in an appointment to which this Section applies and of which the pay is not less than Rs 100, is entitled to an acting allowance of one-fifth of the pay of the appointment Provided that no officer may under this Article be appointed to officiate in a higher grade of his own class

1—A Section-writer or a Press servant who is paid for piece work is, for the purposes of the rules in this Section, held to be an officer without a substantive appointment

141. For the purposes of this Section, the pay of an appointment which belongs to a graded class is the average pay of the grades, calculated without reference to the number of appointments in each grade but the officiating officer's salary shall not exceed the pay of the lowest grade, unless he belongs to another department, and is especially appointed to officiate in a grade other than the lowest

The provisions of this Article are not to be applied in the case of temporary acting appointments not lasting longer than three months so as to give the officiating officer a lower salary than his salary in the appointment he would have continued to hold but for the acting appointment

Medical Appointments.

142. A Military Assistant Surgeon while officiating in charge of a Civil station is entitled to draw the full minimum pay of the post, and to count the period of officiating service towards increment

Note—[In Bengal the Punjab, the Central Provinces, Bihar and Orissa, Assam and Burma, the undermentioned allowances may be granted under the orders of the Local Government to a Military Assistant Surgeon performing the duties of the Civil Surgeon at head-quarters while the latter is absent for more than seven days on duty —

(*a*) If the substantive holder of the charge is a Commissioned Medical Officer—

To a Senior Military Assistant Surgeon, or Military Assistant Surgeon, first class, a duty allowance of Rs 75

To a Military Assistant Surgeon of the second, third or fourth class, a duty allowance of Rs. 50

(*b*) If the substantive holder of the charge is a Civil or Military Assistant Surgeon—

In all cases, a duty allowance of Rs 50]

143. *Cancelled*

143-A. A Military Assistant Surgeon officiating at the Presidency General Hospital, Calcutta, or as Assistant Apothecary,* Medical College Hospital, Calcutta, is entitled to a fixed acting allowance of Rs 50 a month

Officers without a Substantive Appointment.

144. (*a*) An officer without a substantive appointment, officiating in an appointment the pay of which is not less than Rs 100 is ordinarily entitled to an acting allowance of half the pay, or, if the pay of the appointment is progressive, half the minimum pay, of the appointment

(*b*) In special cases, however, the acting allowance may, with the previous sanction of the Local Government, be increased to an amount not exceeding the full pay of the appointment

Note 1—[The Local Government may delegate its powers under clause (*b*) of this Article to Heads of Departments in respect of non gazetted officers under their control]

Note 2—[The salary of an officer without a substantive appointment who does not devote his whole time to the duties of the appointment in which he officiates, is regulated by clause (*a*) of this Article It the appointment is not ordinarily a whole-time post, the Local Government may increase his salary up to the full pay of the appointment under clause (*b*) of the Article, but otherwise no allowance in excess of the minimum laid down in clause (*a*) may be given to such an officer without the sanction of the Government of India]

Note 3—[A report of the circumstances of each case in which sanction is accorded by the Local Government or Subordinate Heads of Departments under clause (*b*) of this Article should be forwarded at the beginning of each year through the audit officer to the Government of India in an amalgamated schedule]

145—146. *Cancelled*

Appointments on less than Rs. 100.

147. The salary of an officer officiating in an appointment of which the pay is less than Rs 100 should, as far as practicable, be regulated by Articles 140 and 144 The following conditions must be observed —

(*i*) If the officiating officer has a substantive appointment, his salary must not exceed what it would be if Article 140 were applied

(*ii*) If he has no substantive appointment, the officer who appoints him may grant him such allowance, not exceeding the pay, or if the appointment is progressive, the minimum pay, of the appointment, as he considers necessary

(*iii*) If the vacancy is caused by the absence on leave of an officer in inferior service, the absentee allowance of such officer must not exceed the difference between his pay and the sum of the acting allowances paid in consequence of his absence, except when in the resultant acting arrangements, an officer who has no substantive appointment is given more than half the pay of the appointment in which he acts—in which case the excess over half pay granted to him may, at the discretion of the Local Government, be disregarded altogether in calculating the sum available for the leave allowance of the absentee and the acting allowances paid in consequence of his absence

1 The Local Government may delegate its power under this clause to Heads of Offices and Departments

148. The third of the conditions above mentioned is not enforced in the case of—

(*i*) Officers on hospital leave under Chapter XII Articles 287 to 294

(*ii*) Female warders or matrons employed in Jails

Appointments on Progressive Pay.

148-A. In the case of progressive appointments, acting allowances are fixed as follows —

(*a*) An officer whose substantive pay is progressive, and who acts in an office of which the pay is fixed In this case the officer's acting allowance is calculated as if his substantive pay were a fixed one, equal to the amount at which from time to time it stands

(*b*) An officer whose substantive pay is fixed, and who acts in an office of which the pay is progressive In this case the officer's acting allowance is calculated upon the pay to which he would from time to time have risen if he had held the officiating appointment substantively

(c) An officer whose substantive pay is progressive, and who acts in an office of which the pay is progressive In this case the officer draws—

(i) His substantive pay, with the increments thereof as they fall due,

(ii) The acting allowance which he would have drawn if the substantive and officiating appointments were both on fixed pay equal to the minimum

Note 1—[No officer should be transferred to officiate in a progressive appointment the value of which calculated under Article 150 is less than that of his substantive appointment, save for special reasons of a public nature, to be recorded by the authority appointing him]

Note 2—[The maximum limit of salary is not that prescribed in Article 96 but the officer's substantive pay or the pay to which he would have risen if his officiating tenure had been substantive, whichever is the greater]

Note 3—[When calculating the salary of an officer who acts in an appointment, the whole of the acting tenure whether continuous or not should be taken into account]

Example—An officer who is substantively in the Rs 170 stage of an appointment on Rs 150—10—200 is appointed to act in an office of which the pay is Rs 200—8—240 His salary is thus fixed—

	Rs	
Pay	170	But this is limited for the first year to Rs 200
Acting allowance (one fifth of Rs 200)	40	
Total	210	

Next year he gets pay Rs 180+acting allowance Rs 40=total Rs 220 But this is limited for a year to Rs 208"

Chapter VII.—In Chapter VII, for the head line "Regulation of Progressive Salaries", "Regulation of Progressive Pay" shall be substituted

After Article 149, the following new Article shall be inserted as Article 149-A —

"149 A The rules in Articles 151 to 160-B in this Chapter do not apply to any Time-scale or Progressive pay sanctioned by the Secretary of State in Council in so far as they are inconsistent with the terms specially so sanctioned for such Time-scale or Progressive pay

Article 155.—Article 155 together with its heading shall be omitted

Chapter VIII.—For Articles 161—173 of Chapter VIII, the following shall be substituted, namely —

SECTION I—AN OFFICER PERFORMING PERMANENTLY THE DUTIES OF ONE OR MORE SANCTIONED APPOINTMENTS IN ADDITION TO THE DUTIES OF HIS OWN APPOINTMENT

161. A Local Government may appoint an officer to hold permanently two or more appointments at the same time if the aggregate remuneration does not exceed the maximum limit up to which it can increase an officer's remuneration The salary of an officer appointed to officiate in two or more appointments which under due sanction have been combined as a single charge is calculated upon the pay fixed for the combined appointment, Article 162 being inoperative in such case

Note—[A Local Government may delegate its power under this Article to a Head of a Department in cases where he is competent to fill up the appointment]

SECTION II—AN OFFICER PERFORMING TEMPORARILY ADDITIONAL DUTIES WHICH ARE OUTSIDE THE DUTIES OF HIS OWN APPOINTMENT

Performance of additional duties for which there are one or more sanctioned appointments.

162. A Local Government may, without the sanction of the Government of India, appoint one officer to hold substantively as a temporary measure, or to officiate in, two or more independent appointments at one time In such cases, the emoluments are regulated as follows —

(i) He draws the highest salary to which he would be entitled if he held, or, as the case may be, officiated in, any one of the appointments alone

(ii) For the other appointment or appointments he draws such allowances as the Local Government may fix, not exceeding for each appointment half the salary which he would draw if he held, or, as the case may be, officiated in, it alone

(iii) Provided that his aggregate salary shall not exceed the pay which he would draw in the most highly paid of the appointments, if he held it substantively and alone

1 The Local Government may delegate its power under this Article to the Head of a Department or Commissioner of a Division

2 The proviso in clause (iii) of this Article may be dispensed with if the Local Government declares that for special reasons (which shall be recorded) it is necessary on public grounds to entrust to the one officer the duties of the several offices at once, and that the salary to which he would be limited by this proviso is not enough

Note —[This Article does not apply to the allowance given to a Government officer for holding a Professorship or Lecturership in any Government institution conjointly with another office]

162-A. Article 162 does not apply to the case of an officer discharging the duties of more than one appointment in the same office or on the same establishment An officer so employed is entitled to the highest salary to which he would be entitled if he held or officiated in any of the appointments alone, and to nothing more

Examples —An Under Secretary discharging the duties of a fellow Under Secretary in the same office or department as well as his own

A Joint Magistrate appointed, in addition to his own duties, to officiate as Magistrate of the District In this case he gets allowances only as Officiating Magistrate

A District Judge deprived of the help of an Additional or Assistant Judge, and therefore doing the Additional or Assistant Judge's work

A Joint Magistrate doing the work of a second Joint Magistrate in the District as well as his own

A subordinate doing the duties of another subordinate in the same office

163. The allowances for his Civil duties of a Military Officer, appointed to officiate in a Civil office other than a Cantonment Magistracy without being relieved of his Military duty, are regulated in accordance with Article 162 and Rule 2 under it and are drawn in the Civil Department If he has no substantive appointment in the Military Department, the pay of his rank is held to be his substantive pay for the purposes of Article 162

Note —[This Article does not apply to cases of Medical appointments falling under Article 171]

164. An officer holding two or more independent appointments, to all or any of which a local or duty allowance is attached, will ordinarily draw the highest allowance (whether it is local allowance or duty allowance) attached to any one of the appointments In case, however, the highest allowance is a local allowance, the difference between this and the highest duty allowance, if any will be treated as a local allowance and the balance as duty allowance But the Local Government may, for special reasons, allow him to draw all such allowances attached to the different appointments held by him

Charge of Current Duties.

165. An officer appointed to be in charge of the current duties of an office in addition to his own duties may, if the charge in the opinion of the Local Government entails a substantial increase of responsibility and some additional work, be granted a charge allowance, to be fixed by the Local Government, not exceeding one-tenth of the pay of the office, provided that if the office is open to, and may in practice be held by, a member of the Indian Civil Service or a Military officer, the allowance shall not be less than Rs 100

Note —[The Local Government may delegate its power under this Article to Heads of Departments]

166. The salary of an officer appointed to be in charge of the current duties of an additional office shall never exceed the salary which he would receive for officiating in the office One effect of this rule is that an officer is not entitled to any allowance for taking charge of an office the pay of which is not more than that of his own substantive office But the Local Government may for special reasons which shall be recorded, relax this restriction

167. The amount of "charge allowance" has been fixed in the cases shown in Appendix 6

168. (*a*) No allowance is admissible under Article 165 unless the incumbent has actually given over charge of the office under the orders of competent authority, and is absent on leave or deputation or is under suspension For instance, no allowance is admissible to a subordinate officer empowered to dispose of routine business while his superior is on tour

(*b*) But in the Northern India Salt Revenue Department charge allowance is granted to an officer placed in charge of the current duties of an Assistant Commissioner's office during the absence of the incumbent on tour

169. An officer placed in charge of the current duties of an office is not entitled to any local or duty allowances attached to the office, except under the special orders of the Local Government (See also Article 1010)

Note —[The Local Government may delegate its power under this Article to the Head of a Department or Commissioner of a Division]

169-A. The above rules in this Chapter do not apply to the special cases dealt with in the following Articles,—Articles 170 to 174,—for which special allowances are admissible

SPECIAL CASES

District Jail.

170. No allowance is admissible to a member of the Indian Civil Service, or to any officer holding an appointment ordinarily held by a member of that Service, or to a Superintendent of a Central Jail for the executive charge, either permanently or temporarily, of a District Jail Any other person, whether he does or does not hold any office under Government, if placed in executive charge of a District Jail, is entitled to an allowance on the following scale —

Agricultural Appointments.

172-B. When a post specially reserved for, or usually filled by, an officer of the Indian Agricultural Service is vacant the Local Government may appoint an officer of the Agricultural Service other than an Indian Agricultural Service Officer to hold charge of its current duties in addition to his own, and may in such cases grant an allowance not exceeding Rs 50 a month

Note 3 —[An officer whose salary does not exceed Rs 100 a month should not ordinarily be required to travel by mail cart or other public stage conveyance drawn by horses]

179. The Audit Officer shall move the Local Government to report to the Government of India any concession made under the preceding Article, which appears to him contrary to the spirit of the rules The Local Government may not, finally, overrule the Audit Officer without a reference to the Governor General in Council

SECTION II —JOINING TIME ON FIRST APPOINTMENT OR TRANSFER

180. Only one day is allowed for joining an appointment which does not necessarily involve a change of residence from one station to another

Note — [Sundays are included in the calculation of the joining time of one day admissible under this Article An officer who gives over charge on Saturday forenoon must, therefore take charge on Saturday afternoon, and an officer who gives over charge on Saturday afternoon, must take charge on Monday forenoon]

181. If an officer is authorised under Article 53 to make over charge of an office elsewhere than at its headquarters, any Joining Time to which he may be entitled shall be reckoned from the place at which he actually makes over charge

When Leave intervenes.

182. When an officer, after giving over charge of his office at one station on transfer, or reversion to another office, takes Privilege or Examination leave before joining the office to which he has been transferred, or to which he has reverted, or when an officer,

while on Privilege or Examination leave, is transferred to a station other than that from which he took leave, he is entitled to Joining Time in addition to his Privilege or Examination leave The Joining Time of an officer transferred during Privilege or Examination leave will be counted from his old station, or from the place where he receives the order of transfer, whichever calculation would entitle him to the less Joining Time

183. If an officer, during transit from one appointment to another, obtains Furlough on medical certificate (with or without Privilege leave prefixed), he may be allowed only the Joining Time calculated for the journey from his old station to the furthest place to which he has proceeded on his route to his new station

Appointment Changed.

184. The Joining Time of an officer whose appointment is changed while he is in transit from one appointment to another begins on the day following that on which he receives his orders

Allowances.

185. Except in the case mentioned in Article 188, an officer draws, during Joining Time the pay or salary which he drew in his old appointment or that which he will draw on joining his new appointment whichever is less Provided that an officer transferred from one officiating appointment to another shall not draw any acting allowance during Joining Time if he had not a superior lien on either of the officiating appointments to that of the officer relieved by or relieving him If the officer is entitled to tentage in his old appointment and tentage is also attached to his new appointment, he may draw tentage during Joining Time at the lower of the two rates If the officer in his old appointment drew a local allowance granted on account of special expensiveness of living or unhealthiness of climate, in any district, province or locality, and the transfer is to another appointment within the same district, province or locality, he may draw the local allowance during Joining Time Provided that, if the rates differ in the two appointments or parts of the local area, he may draw the lower rate only If an officer drawing a duty allowance in one appointment is transferred to another appointment similarly carrying a duty allowance, he may draw the same during the period of transit provided that, if the rates differ, the allowance to which he is entitled is the lower of the two

Note—[An officer transferred from service under His Majesty's Government in the United Kingdom to service to which these Regulations apply draws for the period of the voyage to India and from the date of debarkation to the date preceding that of assumption of charge, pay at the rate last drawn by him in his appointment under His Majesty's Government]

186. When, under Article 182, an officer combines Privilege or Examination leave and Joining Time his allowances during Joining Time—that is to say for the period, not exceeding the Joining Time admissible by rule in excess of his Privilege or Examination leave during which he is absent from duty,—must be calculated at the rate at which Joining Time allowances would have been calculated if he had joined the office to which he is transferred directly

187. If a member of the Indian Civil Service, on first arrival in India, is unable, from illness, to proceed to the seat of the Government to which he is attached or to any other station to which he is ordered to proceed direct, the Local Government in whose jurisdiction he is, may, on medical certificate, grant him a subsistence allowance of Rs 250 a month for not more than two months Time thus spent is not Active Service

188. An officer who is not in the Indian Civil Service or in the Army, and who has no substantive appointment is not entitled to any allowance during Joining Time, but if such an officer officiating in an office is transferred to another office under the same Local Government, the officer who orders the transfer may allow him to draw, during his transit, the allowance to which he would be entitled under the first sentence of Article 185

Note -[A Provincial Government may issue general orders applicable to officers of any particular class holding no substantive appointment permitting them to draw the allowances admissible under the first sentence of Article 185, when transferred from one office under it to another]

Exceeding Joining Time.

189. An officer who does not join his new appointment within his Joining Time is entitled to no allowances after the end of his Joining Time, and after a week ceases to have a lien on any appointment But if the authority making the appointment considers that his default was due to circumstances beyond his control, it may exempt him from the loss of his appointment

Note—[The expression "allowances" in this Article does not include travelling allowance]

Ministerial Officers.

190. A ministerial officer transferred to service in another office is entitled to Joining Time under the rules in this Chapter and his service for leave and pension is not interrupted But unless his transfer has been ordered for the public convenience he is not entitled to any allowances during Joining Time and the Joining Time does not count as service for leave or pension

Note 1—[A transfer at the officer's request for his own advantage or in consequence of any fault on his part is not a transfer for the public convenience within the meaning of this Article]

Note 2—[The procedure laid down in Article 1099 should be followed when an officer is transferred otherwise than for the public convenience]

SECTION III—JOINING TIME ON RETURN FROM LONG LEAVE OUT OF INDIA

190-A. (*a*) An officer returning to India, without the permission of the authority which granted him leave, more than fourteen days before the end of his leave, is not entitled to Joining Time, save under the special orders of the Local Government

(*b*) An officer, serving in Persia or Arabia, reckons such Joining Time from the port or frontier town by which he returns to the country The date of arrival at such port or frontier town must be certified by the British Consul, or, if there be no British Consul, by the officer himself

(*c*) An officer either of the Persian or the Persian Gulf Section of the Indo-European Telegraph Department, who returns from leave by an Indian port, whether it be Karachi or Bombay, may reckon Joining Time from such port

190-B. During Joining Time granted to an officer returning from long leave out of India he is entitled to allowances as follows —

(*a*) If the leave from which the officer returns was (*i*) furlough other than furlough on average salary or (*ii*) extraordinary leave granted in extension of furlough for a period not exceeding 14 days, the officer retaining a lien on his substantive appointment, he is entitled to the allowances which he would have drawn for the last day of his furlough had that day been spent on furlough in Asia These allowances are subject to no maximum if the officer is a member of the Indian Civil Service or a Military Officer subject to the Civil Leave Rules Otherwise they are subject to the maxima prescribed for allowances during leave spent in Asia If the furlough was furlough on average salary under Article 316-A or 325-A, the allowances admissible are as for furlough on half average salary

(*b*) If the leave from which the officer returned was extraordinary leave and the conditions of clause (*a*) (*ii*) are not fulfilled, a member of the Indian Civil Service or a Military Officer subject to the Civil Leave Rules is entitled to subsistence allowance and other officers to no allowance "

Article 197 (Chap. XI).—For clause (*b*) of Article 197, the following shall be substituted, namely —

" (*b*) The Local Government may refuse to grant the full amount of leave applied for in any case, and should, by the exercise of this power, so regulate the date of an officer's return from leave as to cause as little change as possible in administrative arrangements

Local Governments should not grant leave of any description to an extent which would unduly deplete the strength of a service or department available for active duty Consequently, when the duty strength has been reduced to a point which, in the opinion of the Local Government, is for the time being an essential minimum, no further leave of any description should be given save in cases of the most absolute necessity, such as sickness or most urgent private affairs, until the strength available for duty has increased In applying this principle, Local Governments may take into special consideration the case of officers who apply for privilege leave in India, for, as they can be readily recalled if necessary, they stand on a different footing to officers who are out of convenient reach

1 The Local Government may lay down such conditions as it may consider administratively desirable to check any undue frequency of leave in the case of officers holding isolated appointments not filled by members of a regularly organised service.

2. When the cadre of a service includes provision for appointments under the Government of India or in another province, the Local Government should take particular care that the needs of other Governments are properly complied with"

Example —The rate of pay drawn by a Collector and by an Accountant General is different from and higher than the rate of pay drawn by a Joint Magistrate or by an officer in Class I of the Indian Finance Department respectively

Note 1 — [The local allowances known as Burma, Assam and Baluchistan allowances, and the local allowances drawn by certain Executive and Assistant Engineers in Sind, the Punjab and the North West Frontier Province, may continue to be drawn by officers on Privilege leave, provided that the grant of leave does not necessitate the transfer within the limits of the Province of an officer from outside the Province For the purposes of this rule the Punjab and the North West Frontier Province whose Irrigation Departments are manned from a single cadre may be regarded as one Province]

"Chapter XII-A.—Long Leave—General Rules.

SECTION I—EXTENT OF APPLICATION

297. The rules in this Chapter apply to all officers subject to the rules in Chapters XIII and XIV

298. *Omitted*

SECTION II—EXTENSION OF LEAVE OUT OF INDIA

299. (*a*) An officer absent on long leave in Europe, North Africa, America or the West Indies, who wishes to have his leave extended or commuted, must apply to the Secretary of State about three months before the expiration of his leave, and, unless the extension is desired on medical grounds, or is for a period of not more than 14 days, he must produce with his application evidence that the Local Government has been referred to by him and has no objection to the extension or commutation desired

If on medical grounds the officer desires an extension for more than 14 days, he must satisfy the Medical Board at the India Office of the necessity for the extension If application for extension be delayed until the last two months of leave, advice of any extension granted for a period of more than seven days will be sent to India by telegraph and the cost of the telegram will ordinarily be charged to the officer

If the officer has been granted furlough on medical certificate and desires an extension on grounds other than medical, he must satisfy the Medical Board as prescribed in Article 224 that he has recovered his health Any such extension without medical certificate will only be admissible if the extension was due at the time the original furlough was granted

1 In the case of a Commissioned Medical Officer the Local Government should make a reference to the Director General, Indian Medical Service, before granting the permission

(*b*) The Secretary of State reserves to himself the power of granting extension or commutation of leave to an officer in any case in which it appears to him that sufficient ground has been shown for the application being made without the previous approval of the Local Government, but in the event of it being found necessary by the Secretary of State to telegraph to India in regard to any such application, the cost of the telegrams to and from India will be charged to the applicant

Note—[The Secretary of State in granting extension of leave sometimes decline to guarantee retention of appointment, if there is no time to communicate with the Local Government in India]

(*c*) The authority in India, by which the leave was originally granted, is empowered, in any case in which it is satisfied that the non-return of an officer within the period of his leave was due to circumstances beyond his control and of such a nature that an application to the Secretary of State for an extension was impossible before embarkation, or that non-return was for administrative convenience, to sanction retrospectively extension of furlough or leave up to a maximum period of 14 days It is also empowered in the case of an officer returning from furlough on medical certificate to sanction an extension, if the circumstances seem to require it, up to a maximum of 14 days inclusive of any short extension that may have been granted by the Secretary of State

Note 1—[Extensions of furlough up to a maximum of 14 days granted under this clause are not limited by the provisions of Article 233, and may be granted whether the furlough be due or not and in excess of the six months admissible under Article 302]

Note 2—[This Article applies to Military Officers subject to the Military Leave Rules]

300. An officer on long leave in any place out of India not mentioned in Article 299 (a) who wishes to have his leave extended or commuted must apply three months before the expiry of the leave to the authority in India which granted it Whenever leave is extended or commuted under this Article, the fact should forthwith be notified by the Audit Officer to the Government of India in the Finance Department in order to its being communicated to the Secretary of State with a view to the payment by Colonial Treasurers or Staff Officers being checked

Note—[This Article applies to Military Officers subject to the Military Leave Rules]

SECTION III.—FURLOUGH

301. Subject to the provisions of Article 233, furlough for not more than two years at a time may be granted to an officer as follows :—

(a) On medical certificate—unconditionally, see Articles 828 to 834.

(b) Without medical certificate—subject to the condition that the furlough is 'due'.

302. In respect of urgent private affairs, an officer may be granted furlough for a period exceeding the amount 'due' to him, provided that furlough which is not 'due' shall not be granted for a period exceeding 6 months at one time or 12 months in his whole service. An officer who has enjoyed furlough under this Article may not again be granted a furlough on the same condition until the furlough earned by him after his return to duty exceeds so much of the furlough granted under this Article as was not 'due'.

303. If in the interests of the public service all applications for furlough cannot be complied with, the Local Government will have full discretion in deciding which should be granted, and in so doing it may take into consideration the following circumstances :—

(1) The officers who can for the time being best be spared.

(2) The furlough due to the various competing applicants.

(3) The amount and character of the previous continuous active service that they have rendered.

(4) The fact that an officer was compulsorily recalled from the leave last enjoyed by him.

(5) The fact that an officer has been refused leave in the public interests.

304. (a) On medical certificate furlough may be extended to a total period not exceeding three years.

(b) Otherwise than on medical certificate furlough may be extended to a total period not exceeding two years, provided that—

(i) when furlough is combined with other leave, the total period of leave granted shall not exceed two years, and

(ii) the furlough granted under Article 302 which is 'not due', shall not exceed six months.

305. *Cancelled.*

SECTION IV.—EXTRAORDINARY AND CASUAL LEAVE

306. (a) Subject always to the provisions of any Statute applicable to the case, the authority competent to grant leave may, in special circumstances and when no other kind of leave is by rule admissible, grant leave of absence from duty otherwise than under these Regulations : provided that :—

(i) an officer absent from duty on leave so granted shall receive no absentee allowance, and

(ii) if he is a member of the Indian Civil Service or a Military Officer subject to the Civil Leave Rules, he shall retain no lien upon any office except when the extraordinary leave does not exceed a fortnight.

(b) No officer is entitled to extraordinary leave, but subject to the provisions of Article 198, there is no limit to the length or frequency of leave under this Article.

1. The Local Government may for special reasons dispense with the ordinary condition that extraordinary leave can be granted only when no other kind of leave is by rule admissible.

307. A Military Officer subject to the Civil Leave Rules, who has exhausted the full period of furlough admissible to him under these Regulations and who is granted extraordinary leave on medical certificate, will continue to be treated as wholly in the Civil employ for all purposes, with the exception that, if the Medical Board at the India Office report that there is no prospect of the officer returning to duty within a reasonable period, he will be placed on Military half-pay. If an officer thus placed on half-pay is afterwards permitted to revert to the effective list and returns to duty in India he will not be entitled to be reinstated in Civil employment, but will be posted to Civil or Military duty as may be decided in India.

308. Articles 306 and 307 do not refer to casual leave for short periods Such leave is not recognised and is not subject to any rule Technically, therefore, an officer on casual leave is not treated as absent from duty, and his salary is not intermitted Casual leave, however, must not be given so as to cause evasion of the rules regarding—

(i) Date of reckoning allowances }
(ii) Charge of office } see Articles 52—55,
(iii) Commencement and end of leave }
(iv) Return to duty } see Articles 220—231,

or so as to extend the term of Privilege or other leave beyond the time admissible by rule

309. Article 308 is not to be read as precluding the treatment as casual leave, of absence from duty following on leave granted under the rules, so long as such absence is due to reasons involving no evasion of the rules in regard to the matters above specified, as for instance, when it is necessitated by—

(1) detention in plague camps on the way to rejoin, or

(2) orders not to attend office in consequence of the presence of infectious diseases in the family or household of the person concerned

When, however, absence from duty for reasons of the nature above indicated exceeds the period which may reasonably be treated as casual leave under the discretion vested in the Local Government or the Head of the office the officer may be granted leave with allowances of any kind which may be due to him and thereafter leave without allowances

Note 1—[These examples are not meant to be in any way exhaustive]

Note 2—[The Government of India or the Local Government may sanction a substitute for an absentee who is prohibited from attending his duties on account of some infectious disease in his family and whose duties cannot be arranged for without prejudice to his pay, provided that the absence does not exceed 30 days and the pay or salary of the absentee is not more than Rs 100 a month] "

314. An officer, who becomes entitled to the rules in this Chapter after being subject to other Leave Rules, may add to furlough earned under Article 313 an amount of furlough in respect of his previous service calculated as shown below. Any minus result of the calculation may be neglected, while, in the case of an officer other than a Military Officer subject to Civil Leave Rules, the maximum permissible addition is two years:—

(*i*) The service for furlough of a Military Officer subject to the Civil Leave Rules who, before coming under the rules in this Chapter, was subject to the Leave Rules for the Indian Army (1886), shall be calculated in accordance with Article 313 retrospectively from the date of his arrival in India or from the date of coming under the Indian Army Leave Rules, whichever is later, *i.e.*, he shall be credited with furlough equivalent to one-fourth of his active service, as defined in Article 8, less any leave with pay in or out of India actually taken. The provisions of this clause apply to Royal Engineers in Civil employ who, while serving under British Army Leave Rules, either (*a*) have elected for continuous service in India, whether the election was made before or after their entry into Civil employment, or (*b*) have completed five years' Indian service and elect to come under Civil Leave Rules.

1. An officer of the Royal Engineers who has not elected for continuous service in India remains under British Army Leave Rules till he completes 5 years' Indian service.

Note.—[When a Military Officer becomes subject to the Civil Leave Rules the Account Officer in charge of his record of pension service will, on application and on being furnished with the date of commencement of active service, furnish to the Audit Officer to whose audit he becomes subject, a memorandum showing the furlough earned, the different kinds of leave taken (distinguishing those which should be deducted from the *maximum* furlough admissible) and the balance of furlough due under Military Rules.]

(*ii*) An officer who, after being subject to the Indian Service Leave Rules, becomes entitled to the rules contained in this Chapter, shall be credited with furlough equivalent to one-sixth of his active service rendered under the former rules less any leave actually taken under such rules which counts as furlough under Article 322.

315. The amount of furlough 'due' to an officer is the amount he has 'earned' diminished by the furlough and special leave with allowances taken under the rules in force prior to 29th July 1920 and by the furlough taken under these rules.

Note.—[In calculating the amount of furlough 'due' to a member of the Indian Civil Service or a Military Officer subject to the Civil Leave Rules, special leave taken under the rules in force prior to 29th July 1920 and furlough which was not 'due' granted under Article 302 may be disregarded subject to a maximum of six months in all.]

316. Whether such furlough be 'due' or not 'due', an officer is entitled during the first two years of each separate period of furlough to a leave allowance equal to half his average salary, subject to the following limits —

(*b*) In the case of a Military Officer subject to the Civil Leave Rules, the same maxima and minima as in the case of a member of the Indian Civil Service Provided that, during furlough added under Article 314 (*i*) to the furlough earned under Civil Rules, the minimum shall (in the case of an officer who became subject to the Civil Leave Rules on or after the 1st April 1888) be that prescribed by the Military Rules to which an officer was subject immediately before coming under the Civil Leave Rules, and that in the case of an officer of the Royal Engineers, whose case is also governed by Article 314 (*i*), the minimum shall be the rate prescribed by the Leave Rules for the Indian Army, according to the length of his service for Indian pension In the case, however, of an officer of the Royal Engineers, who was serving under British Army Leave Rules immediately before he became subject to the rules in this Chapter the minimum for so much of the furlough credited under Article 314 (*i*) as has been earned by service in civil employment shall be at the rate of (1) £55½ a month if the leave is spent out of Asia and Rs 555 a month if the leave is spent in Asia—if he elected for continuous service in India before the 1st February 1898 (2) £55½ a month if the leave is spent out of Asia and Rs 555 a month if the leave is spent in Asia or the salary last drawn by him on duty, whichever is less—if he elects to come under the Civil Leave Rules after completing five years' Indian service

(*b*) When an officer has taken furlough on average salary, he will be treated as having taken furlough on half average salary for twice the period actually taken on average salary except for purposes of Article 408

(*c*) The maximum period of furlough on average salary in each separate period of leave is 8 months

(*d*) The period during which an officer may draw during furlough average salary in lieu of the allowances ordinarily admissible should be so regulated that at the termination of the period he will still have six months' furlough due to him but this condition is not absolute and may be relaxed at its discretion by the authority granting the furlough

(*e*) The officer's average salary if paid at the Home treasury of the Government of India or in a Colony where the standard of currency is gold, will be converted into sterling at the same rate of exchange as ordinary furlough allowances (*vide* Article 868) The average salary is subject to the following maximum limits —

(*f*) Privilege leave to the extent due may be prefixed to furlough on average salary, subject to a maximum of 8 months for the two kinds of leave combined on each occasion of such combination

Note—[The maximum limit prescribed in this clause is applicable in cases falling under Article 278, in which furlough on average salary is taken in combination with vacation or vacation and Privilege leave]

(*g*) Furlough on half average salary may be granted in continuation of furlough on average salary or of combined Privilege leave and furlough on average salary

317. After the expiry of the first two years of each separate period of furlough an officer on furlough is entitled—

(*i*) if a member of the Indian Civil Service or a Military Officer subject to the Civil Leave Rules, to subsistence allowance,

(*ii*) if an officer not in the Indian Civil Service or the Army, to £60 a month if the leave is spent out of Asia and Rs 600 a month if the leave is spent in Asia, or to one-quarter of his average salary, whichever is less In the case provided for in Article 319 quarter average salary is subject to the minima prescribed in that Article

Note—[In the case of officers drawing their leave allowances in India the Government of India, in exceptional circumstances, may grant leave allowances under Article 316 and not under this Article for any leave taken which is due under Article 315, even though it be in excess of two years]

318. *Omitted*

746-E. If, in the circumstances described in Article 746-D, it be decided to award a pension or gratuity to a civil officer or his family, the amount of the award shall be fixed by the Government of India with reference to the character and service of the officer, the nature of the risk undergone and his conduct in accepting it, and the pecuniary circumstances and prospects of the claimant, the *maximum* award being that which would be admissible n a corresponding case falling under Article 746-B The form and conditions of the award shall ordinarily be the same as those prescribed for a corresponding case under that Article but the Government of India may modify these at their discretion, e g , they may award an equivalent gratuity in lieu of pension, or *vice versa*, if they think that this would be to the benefit of the recipient or desirable on grounds of administrative convenience

(D) If any member of the officer's family does not travel with him, his or her journey may be charged for within the above limits, provided that he or she follows the officer within two months (if a gazetted officer) and six months (if a non-gazetted officer) of the date of his transfer or precedes him by a period not exceeding one month

"APPENDIX NO 32

Rules for the grant of additional leave to officers for the study of scientific, technical or similar problems or in order to undertake special courses of instruction

The following rules relate to study leave only They are not intended to meet the case of officers deputed to other countries at the instance of Government, either for the performance of special duties imposed on them or for the investigation of specific problems connected with their technical duties Such cases will continue to be dealt with on their merits under the provisions of Article 85 of the Civil Service Regulations The rules apply to the Archæological Department, the Sanitary and Bacteriological Departments (other than as regards officers of the Indian Medical Service, to whom special rules apply), the Botanical Survey (including the officers of the Royal Botanic Garden, Calcutta), the Civil Veterinary Department, the Factory Department, the Geological Survey, the Agricultural Department, the Meteorological Department, the Railway Department, Traffic, Locomotive and Engineering Branches, the Telegraph Department, the Zoological Survey, the Education Department, the Public Works Department, and the Forest Department (except in respect of continental tours to which special rules apply) The rules may be extended by the authorities empowered to sanction study leave under Rule 1, to any officer including an officer of a Provincial Service, not belonging to any of the departments mentioned above, in whose case the sanctioning authority is of opinion that leave should be granted in the public interests to pursue a special course of study or investigation of a scientific or technical nature

Note—[The extension of these rules to the Public Works Department does not affect the existing rules under which officers of less than 12 years' service are allowed to visit engineering works when on leave in Great Britain, travelling expenses only being reimbursed]

1 Extra furlough for the purpose of study may be taken either in or outside India It may be granted to an officer of any of the Departments named above by the Local Government or Administration under which he is serving, provided that when an officer borne permanently on the cadre of one province or department is serving temporarily in another province or department the grant of leave is subject to the conditions (*a*) that the sanctioning authority can make local arrangements to carry on his work in his absence, and (*b*) that the sanction of the province or department to which he is permanently attached is obtained before leave is given Study leave should not ordinarily be granted to officers of less than five years' service or to officers within three years of the date at which they have the option of retiring, or, if they have the option of retiring after 20 years' service, within three years of the date at which they will complete 25 years' service

2 The grant of study leave should be made with due regard to the exigencies of the public service In no case should the grant of this leave, in combination with ordinary leave, involve an absence of over two years from an officer's regular duties, or exceed two years in the whole period of an officer's service, nor should it be granted with such frequency as to remove him from contact with his regular work or to cause cadre difficulties owing to his absence on leave A period of 12 months at one time should ordinarily be regarded as a suitable maximum, and should not be exceeded save for exceptional reasons

3 An officer whose study leave is combined with any other kind of leave should be required to take his period of study leave at such a time as to retain, at its conclusion, a balance of other previously sanctioned leave sufficient to cover the period spent in returning to duty

4 When an officer has been granted a definite period of study leave and finds subsequently that his course of study will fall short of the sanctioned period to any considerable extent, his absence from duty should be reduced by the excess period of study leave unless he produces the assent of the sanctioning authority in India to his taking it as ordinary furlough

5 Except as provided in rule 6, all applications for study leave should be submitted with the audit officer's certificate to the Head of the Department through the prescribed channel, and the course or courses of study contemplated and any examination which a candidate proposes to undergo should be clearly specified therein

6 Officers on furlough or other leave in Europe or America, who wish to have part of it converted into study leave, should address the Under Secretary of State, India Office, and should attach (1) a statement showing how they propose to spend the study leave, and (2) documentary evidence that their application for the particular course of study or examination proposed has the approval of the proper authorities in India Similarly, officers on furlough or other leave in Europe or America, who desire to have it extended for purposes of study, should address the Under Secretary of State, but in addition to the above requirements they must support their applications with

documentary evidence of their having obtained the approval of the authorities concerned in India to their applying for an extension of leave

7 A lodging allowance, which for the present has been fixed at 12s a day but which is liable to revision, will be granted for the period spent in prosecuting a definite course of study in Great Britain at a recognised institution or in any definite tour of inspection of any special class of work, as well as for the period covered by any examination at the end of the course of study The rate to be granted to officers who take study leave in other countries, including India, will be specially considered by the Secretary of State or the Government of India, as the case may be, in each case In no case will subsistence allowance be granted in addition to lodging allowance and ordinarily travelling expenses will not be paid, but in exceptional cases claims will be considered on their merits by the Government of India in consultation, if necessary, with the Secretary of State

8 Lodging allowance will be admissible up to 14 days for any period of vacation A period during which an officer interrupts his course for his own convenience cannot be considered as vacation In the case of an officer retiring from the service without returning to duty after a period of study leave the lodging allowance will be forfeited If the officer is under civil leave rules the study leave will be converted into furlough to the extent of the furlough standing to his credit at the date of retirement Any balance of the period of study leave mentioned above which cannot be so converted will be excluded in reckoning service for pension

9 Officers granted study leave are ordinarily required to meet the cost of fees paid for courses of study In exceptional cases the Secretary of State or the Government of India, as the case may be, will be prepared to consider proposals that such fees should be paid by Government

10 On completion of the study the certificates of examinations passed or the certificates of special study, which should show the dates of commencement and termination of the course, with any remarks by the instructor, shall, when the study leave has been taken in Europe or America, be forwarded to the Under Secretary of State, India Office, and, when the study leave has been taken in any other country, to the authority which sanctioned the leave In the case of a definite course of study at a recognised institution the lodging allowance will be payable at the India Office or in India, as the case may be, on claims submitted by the officer from time to time, supported by proper certificates of attendance When the programme of study approved under rule 5 does not include or does not consist entirely of such a course of study, the officer shall submit to the India Office or to the authority in India which sanctioned his leave, as the case may be, a diary showing how his time has been spent, and a report indicating fully the nature of the methods and operations which have been studied, and including suggestions as to the possibility of applying such methods or operations to India The Secretary of State or the sanctioning authority in India, as the case may be will decide whether the diary and report show that the time of the officer has been properly employed, and will determine accordingly for what period the lodging allowance referred to in rule 7 may be granted

11 Study leave will count as service for promotion and pension but, except so far as it may be taken during privilege leave, not for furlough or any other leave It will not affect any leave which may already be due to an officer, it will count as extra furlough, and will not be taken into account in reckoning the aggregate amount of furlough taken by the officer towards the maximum period admissible under the Civil Service Regulations

12 An officer on privilege or combined leave may be permitted to commence a course of study before the end of his privilege leave, and to draw for such period the lodging allowance admissible under rule 7, without forfeiting his privilege leave allowance during such period With the foregoing exception an officer, during study leave, will draw furlough pay For all purposes of record and subsequent calculation of leave, the full amount of study leave taken shall in such cases be post-dated as if it commenced at the end of the privilege leave

Military officers in civil employ will be entitled to draw furlough pay as follows —

(a) To an officer taking study leave while under military leave rules the rate of furlough pay admissible to him under those rules

(b) To an officer taking study leave while under civil leave rules the rate prescribed in Article 316 of the Civil Service Regulations for an officer on ordinary furlough subject to the limits laid down in Article 316 (a)

13 On an application for study leave in Europe or America being sanctioned by the Government of Madras, Bombay or Bengal, the Local Government should inform the India Office of the particulars of the case When such leave is sanctioned by any other Local Government or Administration, a report should be made to the Government of India who will inform the India Office It will be necessary for the officer concerned to place himself in communication with the Secretary of State who will arrange any details and issue any letters of introduction that may be required In all cases in which study leave in any other country is sanctioned the particulars should be reported to the Government of India"

The uncoloured half-penny maps showing river systems and a few towns, published by the same Company are excellent for class use

The autograph hand maps, with hill shading in brown, published by Messrs Edward Standford, London, at one penny each are very good, and are larger than the Diagram Company's hand maps The 15" map of the world on Mollweild's equal area projection is specially to be commended

(5) Wall pictures of considerable artistic merit are published by Messrs Edward Arnold of Leeds, Horns Hachette of Paris, Messrs Holzel of Vienna and Messrs Longmans Green and Company They cost, delivered in India, from two or three rupees each

Map lantern slides and view slides specially prepared for Geography teaching are sold by the Diagram Company for two or three shillings each Mr Burlington Smith of Darjeeling also sells good picture slides of the Himalayas at Rs 15 per dozen]

RESOLUTION—No 615T—A I

Minister-in charge The Hon'ble Raja Bhupendra Narayan Sinha Bahadur, of Nashipur

READ—

Annual Reports of the Civil Veterinary Department Bengal, and of the Bengal Veterinary College for the year 1927-28

I.—Civil Veterinary Department, Bengal.

Mr P J Kerr held charge of the office of the Director of Civil Veterinary Department and Veterinary Adviser to the Government of Bengal, with a short period of absence owing to illness, from the beginning of the year until 23rd September when he proceeded on long leave Mr R T Davis officiated for him for the remainder of

the year Rai Sahib S C Pal and Babu N N Mazumdar, Assistant Directors were in charge of the Western and Eastern Ranges, respectively, throughout the year

2 The Director, not without justification, couches his general remarks in a tone of some despondency—want of funds have prevented several important schemes being brought into being, such as the free supply of serum the appointment of 9 extra Staff Veterinary Assistant Surgeons, and the appointment of a Veterinary Inspector for propaganda work Nor has it been possible to make any progress with the long-standing question of the revision of the pay of the Veterinary Assistant Surgeons On the side of local bodies who employ and bear two thirds of the cost of the subordinate veterinary staff there is too often evident an apparent failure to appreciate the important bearing that the control of epidemic diseases, together with the ordinary care of animals, has on the prosperity of the country This attitude is reflected also, as the Principal, Bengal Veterinary College, observes, in the steady fall in the number of District Board stipends awarded to students at the college Consequently, the staff shows little or no expansion and in one case a local body has got rid of the Veterinary Assistant Surgeon whom it had hitherto been entertaining It must be admitted, however, in all fairness to local bodies, that the increasing calls which are made upon limited financial resources particularly on the side of medical and public health work make it inevitable that they should cut down expenditure somewhere and veterinary interests are not the only ones that have suffered

A noticeable exception however is the Nadia District Board who were enterprising enough to organise a travelling exhibition in which the Veterinary as well as the Public Health and Agriculture Departments took part

The scheme for thana veterinary dispensaries under the administration of Union Boards to which reference was made in last year's review has not yet materialised, as the amendment to the Village Self-Government Act which was necessary in order to make it possible, had to be dropped after being introduced in the present session of the Legislative Council The future of the Bill is still, however under consideration

3 The year was a mild one so far as epidemic diseases were concerned, but, as Mr Davis points out these things go in cycles and diminution of outbreaks in a particular year is no indication that such diseases are dying out

The total number of deaths from epidemic diseases was 15,459 as against 35 719 in the previous year The deaths from rinderpest, which accounted for 76 per cent of the total fell from 33,405 to 11 790 Hæmorrhagic septicæmia, on the other hand, showed a slight increase from 1 492 to 1,899 Tippera heads the rinderpest list with 1,611 deaths closely followed by Chittagong with 1,521 and Mymensingh with 935 The casualties in Khulna and Bakarganj fell from over 4 400 each to 473 and 688, respectively The deaths in Sodepur Pinjrapole fell from 189 to 142

During the year 113,757 inoculations were performed as against 206 616 in the previous year, but this was in respect of a number of outbreaks which was less by more than half than that of the previous year The death rate among inoculated animals was negligible It is satisfactory to observe that there is very little opposition to inoculation There was again an increase of patients treated by Veterinary Assistant Surgeons on tour, viz, 169,385 as against 126,661, an increase of over 33 per cent, while the number of cases treated at dispensaries and hospitals rose from 56,184 to 71,159, or by over 26 per cent (the rate of increase last year was 10 per cent) These figures indicate that the animal-owner at any rate is appreciating more and more the value of veterinary attendance and show that there is a need for more dispensaries and a bigger staff Yet no new hospital or dispensary was opened during the year and there was no increase of staff

The Hon'ble Minister is glad to note, however, that the Mymensingh District Board have undertaken the construction of a serum cellar at their Sadar Dispensary that the Pabna District Board have allotted Rs 12,000 for the construction of a Veterinary Hospital and quarters for the Veterinary Assistant Surgeon at Pabna, and that the Rajshahi District Board have constructed a serum cellar at the headquarters veterinary hospital

The Department participated once more in the Eastern Bengal Railway Demonstration Train

4 His Excellency, acting with his Minister, notices with pleasure the names of officers of the Department who did good work during the year and desires also to acknowledge the care and attention which Messrs Kerr and Davis devoted to their duties

II.—Bengal Veterinary College.

5. Mr A D MacGregor held charge as Principal throughout the year Mr R T Davis was Vice-Principal from 1st April up to 22nd September when he was appointed to act as Director, Civil Veterinary Department, and Mr S S Ahmad did Mr Davis' duties as Vice-Principal up to the end of the year Rai Sahib Dibakar Dey, the Assistant Principal, was on leave from 5th May to 1st November and in his absence Babu D K Sen and Mr S S Ahmad acted for him at different periods

The Hon'ble Minister records with regret the death during the year of Babu N L Mitter, a lecturer and a member of the Provincial Service

6 The number of students again showed an increase and there were 144 on the rolls at the close of the session as against 125 in the previous year Of these, 46 were from Bengal as against 32 last year, but the Bihar and Orissa students fell from 66 to 53 The rest included students from Persia, Ceylon, Bhutan, Penang and Iraq On the results of the annual examinations, the Board of Examiners stated that they considered the results were highly satisfactory and that the students as a whole had been well taught Though it is a source of satisfaction to have the college well filled with students, it is still more important that there should be sufficient employment for them after they have finished their course, and unless there is an expansion of veterinary activity among local bodies it is to be feared that the employment for all passed students may not be forthcoming

A four months' training class for farriers and dressers was opened during the year and promises to be popular

7 During the year 2,561 patients were treated and 469 operations performed as against 2,562 and 374, respectively last year The college was self-supporting to the extent that the fees realised from patients just balanced the cost of feed (including both patients and college animals) Fodder crops were again grown successfully and the sale of surplus fodder realised Rs 2,590, or Rs 1,000 more than in last year

The new Dissection theatre, which was opened during the year, will be a valuable addition to the equipment of the college

Useful work was as usual carried out at the Raymond Research Laboratory, where 138 brains of animals suspected of rabies and many other pathological specimens were examined

8 The Committee of Management held three meetings during the year, which were, on the whole, well attended

9 His Excellency, acting with his Minister, notices with pleasure the names of those of the staff whom the Principal mentions for good work during the year and desires to acknowledge also the services of Mr MacGregor himself

10 The Minister would conclude this resolution by stating that he has to discharge the duty of reviewing the administration of a year in the policy or supervision of which he had no hand and so naturally he had to proceed on records as he found them The difficulties of his delicate task have been further enhanced by the fact that he had to undertake this duty even before he had a reasonable time to shape his own policy

RESOLUTION ON THE REPORTS ON INLAND EMIGRATION UNDER THE ASSAM LABOUR AND EMIGRATION ACT, 1901 (VI OF 1901), FOR THE YEAR ENDING THE 30TH JUNE 1928.

GOVERNMENT OF BENGAL.

Revenue Department.

Emigration.

DARJEELING, THE 29TH OCTOBER 1928

RESOLUTION—No 606 T -R

READ—

The Reports on Inland Emigration under the Assam Labour and Emigration Act, 1901 (VI of 1901), for the year ending the 30th June 1928 submitted by the Superintendent of Emigration, Calcutta and the District and Assistant Superintendents of Emigration

There was an increase in the number of emigrants despatched to the labour districts during the year under review as compared with the previous year

2 Recruiting operations in Bengal were conducted, as in previous years, in the districts of Bankura Birbhum, Burdwan and Midnapore and in addition in the district of Murshidabad The number of garden sardars employed during the year was 512 (including 98 sardarnis) as against 340 in the previous year All worked under the supervision of licensed local agents The number of local agents' licenses was 11 as compared with 13 issued in the previous year The total number of emigrants recruited in Bengal was 912 as against 117 in the previous year the largest number coming from Birbhum, viz 776 The total number of recruits from Bengal and other provinces embarking at Goalundo was 12,688 (including those recruited in the Bombay Presidency outside the Act) as compared with 11,212 in the preceding year

3 The rest-houses for emigrants at Asansol, Kharagpur Naihati and Goalundo maintained by the Tea Districts Labour Association were frequently inspected and their condition was found to be, in all respects, satisfactory

4 Six deaths occurred among the emigrants on transit, viz 1 at the halting station at Naihati and 3 at Goalundo while 2 infants died on the journey between Naihati and Goalundo No deaths occurred at other halting places Out of the total number of emigrants who arrived from the different recruiting districts in and outside the Presidency of Bengal 3 deserted, viz , 2 from Kharagpur and 1 from Goalundo and 13 were released because they were either physically unfit for labour or unwilling to emigrate This number included 2 dependents There was no death or desertion amongst emigrants during their journeys by steamer from Goalundo or by railway from Chandpur to their final destination

5 In connection with the transport of labour to Assam receipts increased from Rs 565 in the preceding year to Rs 697 during the year under review, while the expenditure decreased from Rs 17,777-7-6 to Rs 16,756-4 The decrease in the expenditure is due to the fact that, as the work of the Emigration Agency office at Goalundo has diminished on account of the despatch of large numbers of emigrants by rail to Assam *via* the Santahar-Rangya-Amingaon route, owing to the construction of the Lower Ganges Bridge at Sara the post of the Assistant Superintendent of Emigration and Embarkation Agent at Goalundo has been filled during the year under review by a retired I M D Officer at a lower rate of remuneration than that drawn by the officer on the active list of that department by whom the post was previously filled

6 Lieutenant-Colonel A Denham White, I M S , held the office of the Superintendent of Emigration Calcutta from the beginning of the year up to 11th April 1928 when he proceeded on leave and Major W O Walker, I M S for the remaining period of the year

The thanks of the Governor in Council are due to them and to the local officers for their assistance in the administration of the Act

5 **Temperance movements.**—Besides the work of the various temperance organisations in Calcutta, specially the Calcutta Temperance Fedaration, reports of temperance movements during the year were received from the following districts —

(*i*) *Murshidabad*—The local missionaries convened a temperance meeting at Saidabad

(*iv*) *Dinajpur*—Some workers of the Suddhi movement devoted their attention to bring about abstinence from drink among the aboriginal tribes

(*v*) *Bogra*—It is reported that the Hindu Mission of Hili preached temperance among the Santals in the district, as a result of which they were gradually giving up the habit of taking pachwai

(*vi*) *Darjeeling*—It is reported that some newly started temperance associations and some Christian missionaries directed their attention to the cause of temperance, but there was no tangible effect on the consumption of intoxicating articles

6 **Excise Licensing Boards.**—The *Calcutta Licensing Board* held 5 meetings and adopted the measures indicated below —

(*a*) The following licensed shops were abolished with effect from the 1st April 1928 —1 country spirit, 2 tari, 1 ganja, 1 opium and 1 restaurant The privilege of "on" sale was withdrawn from one country spirit shop with effect from the same date

The *Bally Board* effected no change in the number and location of shops during the year One application for a new foreign liquor public "off" license at Belur was rejected by them

The *Sadar Licensing Board of the 24-Parganas district* held two meetings One country spirit and 5 tari shops were abolished on their recommendations

In accordance with their recommendations, 2 country spirit, 4 tari, 7 pachwai, 1 ganja and 2 opium shops were abolished Their recommendations for change of sites of 15 country spirit, 10 tari, 13 pachwai, 1 opium and 3 ganja shops were accepted One country spirit, 2 pachwai, 1 foreign liquor, 3 opium, 2 ganja and 9 bhang shops were newly opened with effect from the 1st April 1928 on their recommendations

While most of the Advisory Committees showed due discretion and appreciation of existing conditions in their recommendations, a few recommended total abolition of all excise and opium shops from their jurisdictions

* * * *

The recommendations referred to above for total abolition of all drink and drug shops, in particular localities, were not accepted as total prohibition is not the policy of the Government regarding alcoholic liquors and intoxicating drugs

Difference of the past two years	− 8,599	− 80 579	−0 02

* Excludes cost price of opium as well as an amount of Rs 90 060 adjusted on account of excess cost price of opium

The decrease was mainly due to decreased consumption of country spirit in Jalpaiguri, as well as in several districts of the Burdwan, Presidency and Rajshahi Divisions The reasons for the decrease in consumption in Jalpaiguri were special, whereas the decrease in the other districts was chiefly due to bad economic conditions resulting from failure of crops, low price of jute, and general depression in trade The decrease of consumption of country spirit amongst the tea-garden coolies in the district of Jalpaiguri has been fully explained in paragraph 16 of the Report.

9 **Actual receipts.**—Deducting the advance collections (Rs 1,36,057) for 1928-29 and adding the revenue (Rs 1,06,352) which was collected in advance in 1926-27, the actual receipts on account of 1927-28 were Rs 2,23,49,292 against Rs 2,25,19,571 (after similar adjustment) of the preceding year To the actual receipts of 1927-28, a sum of Rs 90,060 may be added on account of adjustment of excess payment in the cost of excise opium supplied to Bengal from 1st November 1925 to 31st March 1927, bringing up the total receipts to Rs 2,24 39,352

10 **Excise charges** * * * * * —The total expenditure of the Excise and Salt Department, excluding the cost price of opium payable to the Government of India, was Rs 15,21,327 during the year, against Rs 15,29,926 during 1926-27

11 **Revenue under different heads** * * * * —The largest increase of revenue (Rs 2,97,459) occurred under "Total receipts from country fermented liquors other than malt liquors" The revenue from "Pachwai" (rice beer) advanced by Rs 1,53 361, while that from "Tari" by Rs 1,44,098 Receipts under "Miscellaneous" showed an increase of Rs 94,674 Receipts from "Commercial spirits" came next with an increase of Rs 14 298 The largest decrease (Rs 3,00 238) occurred under the head "Country spirit" followed by a decrease of Rs 1,49,698 from "Potable foreign liquors," Rs 39,417 from "Total receipts from hemp drugs" and Rs 16,588 from "Opium"

12 **Demand and collection** * * * * —Of the gross demand of Rs 2,24,16,683, a sum of Rs 2,23,78,997 or 99 8 per cent, was realised Rs 15,723 was remitted as irrecoverable The incidence of excise revenue per head of population was 7 annas 8 pies as in the previous year

* * * *

SECTION II.—Country Liquor.

* * * *

COUNTRY SPIRIT.

14 **System of supply and sale.**—There were no changes in the system of supply and sale

15 **Retail licenses.**—The number of licenses for the sale of country spirit was 931 against 938 in 1926-27, showing a decrease of 7 licenses

16 **Consumption.**—The total consumption of country spirit in the Presidency amounted to 591,935 L P gallons as compared with 627,962 L P gallons in the preceding year, showing a decrease of 36,027 L P gallons Consumption decreased in 18 districts and increased in 8 districts A large decrease of 24,236 L P gallons or 34 3 per cent, occurred in the district of Jalpaiguri Weak spirit of the strength of 75° U P was introduced in the tea-garden areas of the district, east of the Teesta, with effect from 1st January 1926, specially with a view to compete with cheap illicit liquor This led, however, to very excessive drinking amongst the tea-garden coolies and necessitated a substantial increase in the price which was accordingly raised The Deputy Commissioner has reported that the decrease in consumption was partly due to the increase in the price, and partly to other contributory causes, which were the lower price of jute, and late plucking of tea in the season as well as higher price of paddy, and the abolition of two country spirit shops in the tea-garden areas

There was a general decrease in the majority of the districts of the Burdwan and Presidency Divisions and was due to the bad economic conditions owing to the high price of rice and low price of jute as well as to the closure of some rice mills Several of the districts in North Bengal as well as the districts of Dacca and Faridpur showed decrease in consumption due to economic causes brought about by higher price of rice and lower price of jute, and consequent depression of trade

The increase, in the districts where it occurred, was nominal, except in Midnapore and in Chittagong The increase in Midnapore was partly due to the detection of illicit distillation cases in the jungle area of the district The increase in Chittagong has been attributed to the development of the town as a major port and also to the opening of three shops for sale of a cheap weak liquor of 75° U P in the garden areas of the district

17 **Total revenue from country spirit.**—The total revenue (license and distillery fees and duty) from country

spirit was Rs 87,58,135 against Rs 90,58,373, a decrease of Rs 3,00,238 The revenue derived from duty and distillery fees decreased by Rs 2,49,678 and that from license fees decreased by Rs 50,560

18 **Convictions for drunkenness and action taken against licensees for permitting it.**— * * *

* * * *

* * * In Calcutta 4,226 persons were convicted of drunkenness as compared with 3,241 persons in the previous year, but no statistics were taken to show what proportions of these cases were due to country spirit, tari and foreign liquor respectively The Commissioner of Police cannot assign any special reason for this increase The Magistrate of Howrah reported that the increase in the number of convictions from drunkenness within the municipal limit of Howrah, was due to better detection of cases of drunkenness on the part of the Police

19 **Distilleries and warehouses.**—There was no change in the number of distilleries The rates fixed for cost price of country spirit from 1st July 1927 were—(1) Messrs Carew & Co, Re 1-12 4 per L P gallon, (2) Messrs D Waldie & Co, Re 1-9-9 per L P gallon, (3) Messrs Hajee Ismail Sait & Sons, Re 1-7-0 per L P gallon These rates continued till the 30th June 1928

Adequate supply of liquor was generally maintained throughout the year from the distilleries to the bonded warehouses and though on several occasions the stock fell below the prescribed minimum the issues to the "retail" premises were not affected

TARI.

20 **General.**—During the year under report licenses for the retail sale of fermented tari were settled by auction in the tree-tax as well as in, the other areas of the Presidency

21 **The tree-tax system in Hooghly, Howrah, the 24-Parganas and Calcutta.**—The system worked satisfactorily during the year under report

22 **Statistics.**—The total receipts under the head "Tari" increased from Rs 8,34,452 to Rs 9,78,550 The number of retail licenses decreased from 537 to 519. The bulk of the tari revenue was derived, as in previous years, from the Burdwan and Presidency Divisions and the district of Malda, which altogether contributed Rs 9,43,342 out of the total revenue of Rs 9,78,550 The increase in revenue was due to the better working of the tree tax system as well as the settlement of licensed shops at higher bids during the last auctions in Calcutta and 24-Parganas

PACHWAI.

23 **Licenses.**—The total number of licenses issued for "retail sale," "home-brew (annual)" and "manufacture of pachwai on special occasions" was 59,980 as compared with 54,952 in 1926-27

	Number of licenses issued in—	
	1926 27	1927 28
Retail sale	1,201	1,186
Home brew (annual)	52,992	58 784
Manufacture on special occasions	759	1,057

The increase in the number of licenses permitting "home brew" of pachwai was due mainly to increase in the number of such licenses in the district of Jalpaiguri, where under a special system such licenses are issued to the tea-garden labourers by the managers of the gardens

24 **Revenue.**—The revenue in license fees from "retail vend shops" increased from Rs 10,05,382 to Rs 11,50,854 The increase was marked in Burdwan (Rs 1,03,325), Birbhum (Rs 21,808), Bankura (Rs 16,392), and Midnapore (Rs 15,487), while there was a decrease of Rs 13,848 in Murshidabad The increase in revenue in Burdwan, Birbhum and Bankura was mainly due to increase in consumption owing to the close supervision over pachwai shops, as well as more frequent sampling of diluted pachwai for strength In Murshidabad the low class Hindu and Santal cultivators were the chief consumers of pachwai As the cultivator classes were practically out of employment owing to drought there was fall in consumption as well as in revenue

25 **Consumption.**—The consumption in the districts of Burdwan, Birbhum, Bankura, Midnapore and Hooghly where the Bengal fixed fee system was

in operation from previous years and accurate figures of consumption from the licensed shops were available, amounted to 217,355 maunds of rice against 201,982 maunds of rice during the previous year as detailed below —

The fixed fee system was introduced in the pachwai shops of the Murshidabad district during the year under report and the consumption in that district amounted to 8,778 maunds of dry rice

	Maunds of rice 1926 27	1927 28
Burdwan	97 101	107,615
Birbhum	62,663	64,131
Bankura	26,732	29,397
Midnapore	2,964	3,567
Hooghly	12,522	12,645
Murshidabad		8,778
	2 01 982	2,26,133

Out of 1,186 licenses in the Presidency for the manufacture and vend of pachwai 926 worked under the fixed fee system during the year under report

26 **Control over manufacture and sale of pachwai and of bakhar.**—The control over the manufacture and sale of pachwai was made increasingly effective in all the districts where the fixed fee system of licensing was in force The Collectors have reported that considerable improvement has been made in the strengths of diluted pachwai, due to frequent sampling of pachwai by the Ebullioscope Neatness and cleanliness in manufacture were enforced by personal instructions of inspecting officers The quality of bakhar used was improved by elimination of undesirable and unskilful manufacturers as far as possible, and close supervision was exercised both over the manufacture and sale by the executive staff

The consumers are generally getting accustomed to the prescribed strengths and cases of overdilution are reported to inspecting officers Several of the worst cases of overdilution of pachwai by licensees were dealt with by cancellation or non-renewal of licenses

27 The number of licenses issued for the manufacture and sale of bakhar during the year were as follows —

District	Number of licenses issued: Manufacture and sale of bakhar	Sale of bakhar
Burdwan	6	8
Birbhum	15	7
Bankura	19	10
Midnapore	73	
Hooghly		2
Murshidabad	2	3

The number of licenses issued in Birbhum for the manufacture and sale of bakhar was further curtailed during the year The Superintendent of Excise, Birbhum, Mr D N Mukherjee, continued his investigations regarding "bakhar" during the year, and the question of further control over the manufacture and sale of "bakhar" is under consideration at present

* * * *

30 **Free brew of pachwai on special festivals.**—The concession of "free brew" of pachwai was permitted as in previous years to the aboriginal tribes in Burdwan, Birbhum, Bankura and Midnapore during special festivals

SECTION III.—Foreign liquor.

The Collector of Customs, Calcutta, has commented on the statistics for the Port of Calcutta in 1927-28 as follows —

"The public taste in liquors is singularly conservative and the demand responds very little to change in price

Beer, whisky and brandy, the three drinks most in demand, were imported during 1927-28 in very much the same quantities as in the year 1907-08 nor have any of these quantities shown very large fluctuations in the intervening years except in the case of beer During the War when brewing in the United Kingdom was restricted, imports were naturally reduced but this beverage has steadily regained its popularity and the record figure of 1912-13 has now been exceeded This is mainly due to the improvement in quality of the light beers brewed in the United Kingdom for tropical consumption and the import of British beers during the year amounted to 706,000 gallons Japanese beers continued to lose ground, the imports being only 53,000 gallons as against 475,000 gallons during the year after the War Imports of German beers have also fallen during the year from 352,000 to 316,000 gallons, but Dutch beers have improved from 31,000 to 35,000 gallons

"There have been no noteworthy fluctuations under any of the other heads"

The following statistics show imports and issues of spirits in L P gallons at the Calcutta Custom House —

Year	Brandy whisky rum and gin	Java arrack	White and rectified spirit	Total

33 **Import and manufacture of Indian made brandy, whisky, gin and rum.**—The figures below show the total quantity of spirit used in the manufacture of brandy, whisky, gin and rum in Bengal, as well as the imports thereof from other provinces —

Total	5 151	12,809	17 960
Figures of 1926 27	7 133	18,600	25 733

Besides the above, 39 8 L P gallons of rum were imported from the Dyer Distillery, Lucknow

34 **Manufacture of beer.**—Two brewing licenses were issued during the year under report But only the Victoria Brewery at Sonada worked, yielding an outturn of 17,028 gallons, of which 12,286 gallons were sold to the Military authorities, 1,987 gallons to the public and 2,755 gallons to the provinces outside Bengal

35 **Duty on Indian made potable foreign liquors and beers.**—The duty on potable spirits and beer manufactured in India amounted to Rs 4,18 899 against Rs 5,90,177 and Rs 7,53 882 in the two previous years The decrease during the year under report was partly due to the preference shown by consumers of the cheap brands of foreign liquor, for the imported article in place of the article manufactured locally, as well as to the fact that there being no fixed standard sizes for bottles of the imported article, the locally manufactured stuff could not successfully compete with the cheap foreign stuff which was imported in small-sized bottles This question is under separate consideration

36 **Licenses and fees.**—The total number of licenses issued for "Trade" and "Public" vend was 1,610 against 1,582 in the preceding year The increase occurred under "Trade" (3), "Retail off" (2), "Hostels, etc" (3), "Railway refreshment room" (1), "Canteen" (2), "Late closing" (22), while a decrease occurred under "Temporary bars" (5)

The total receipts from license fees on foreign liquor licenses, levied under the Bengal fixed fee system, were as follows —

	Rs
1923 24	2,74,698
1924 25	3 05,907
1925 26	2,95 784
1926 27	3,09 946
1927 28	3,30,113

MEDICATED WINES.

37 **Licenses and revenue.**—The number of licenses for the retail sale of medicated wines was 222 against 189 in the preceding year The revenue from license fees was Rs 7,225 against Rs 10,615 in the previous year showing a decrease of Rs 3 390 The decrease was due to larger realisation of license fees in advance during the year 1926-27

II.—INDUSTRIAL SPIRITS (EXCLUDING DENATURED SPIRITS).

* * * *

38 **Revenue.**— The total revenue derived from rectified spirit and absolute alcohol used for medicinal, scientific or other industrial purposes in the Presidency was Rs 5,22,413 against Rs 5,00,895 in the previous year

* * * *

39 **Issue of rectified spirit from distilleries and warehouses.**—The following quantities of rectified spirit were issued during the year for medicinal, industrial and scientific purposes from distilleries and excise warehouses in Bengal —

Place of manufacture	Duty free issues to Government Departments, Colleges, &c (L P gallons)	For manufacture of tinctures and other medicinal preparations (L P gallons)	
		To bonded laboratories	By permit holders
1	2	3	4

Bahir Mirzapur	6 622	26,169	1 157
Total	8 532	128 041	8,697

Besides the above, 164 6 L P gallons of rum were issued, duty free, from the Konnagar Distillery for use in hospitals and 20 5 L P gallons from the Russa Distillery to the Deputy Commissioner, Naga Hills

Duty free issues of rectified spirit and absolute alcohol, as shown in column 2 above, were made to the following institutions —

- Indian Medical Store Depot
- Zoological Surveyor of India
- Officer-in-charge, Mathematical Instrument Office
- School of Tropical Medicine
- Dacca University
- Bethune College
- Calcutta Corporation
- Mines Board of Health
- Deputy Controller of Stationery and Stamps
- Assistant Director of Agriculture, Dacca
- Civil Surgeon, Champaran
- Head Chemist, Excise, Bengal

40 **Manufacture of tinctures and medicines.**—Six bonded laboratories in Calcutta and one in Konnagar continued to manufacture tinctures and medicinal preparations during the year under report, 60,888 L P gallons of rectified spirit contained in tinctures and medicinal preparations were issued from the seven laboratories on payment of duty against 60,466 L P gallons issued during the year 1926-27 The duty realised on tinctures issued from bonded laboratories at Rs 5 per L P gallons on the spirit contents were Rs 3,04,440 against Rs 3,02,330 in the preceding year Medicinal preparations containing 21,556 L P gallons of spirit were issued, duty free, to the charitable dispensaries and hospitals in the various provinces in addition to 6,283 L P gallons of rectified spirit and 1,607 L P gallons of absolute alcohol Sixty-six L P gallons of rectified spirit and 217 L P gallons of absolute alcohol were issued, duty free, to the following institutions from the Konnagar Laboratory —

Permit-holders in Bengal took supplies of 18,062 5 L P gallons of rectified spirit and absolute alcohol from the distilleries and bonded laboratories on payment of Rs 90,312-8, as duty

Besides 154 8, 142 4 and 75 2 L P gallons of rectified spirit and absolute alcohol were supplied to permit-holders in Assam, Behar and Orissa, and United Provinces, respectively on payment of duty in those provinces

The latest rules enforcing strict adherence to prescribed B.P standards and approved recipes, have decidedly helped in the healthy growth of the pharmaceutical industry . It is a matter of satisfaction that bonders are paying much greater attention to quality Many of them have already well equipped analytical laboratories and important preparations are often sent by them to the School of Tropical Medicine for physiological test and standardization at their own cost The working of the bonded laboratories during the year was, on the whole, satisfactory

* * * *

41 **Issues of rectified spirit and absolute alcohol from bonded laboratories and distilleries for medicinal, industrial and other purposes on payment of full duty.**—Six thousand nine hundred and eighty-five L P gallons of rectified spirit and absolute alcohol were sold on payment of full duty from the distilleries and bonded laboratories, for industrial, medicinal and scientific purposes to licensed chemists, druggists, etc

SECTION IV.—Hemp Drugs.

GANJA.

47 **Retail licenses.**—The total number of licenses issued in the Presidency for the retail sale of ganja was 1 208 against 1,218 in 1926-27 Under the orders of the Licensing Boards 2 shops were abolished in Calcutta, 3 in Chittagong and 4 in Rangpur

A new shop was opened in the district of Nadia on the recommendation of the Excise Advisory Committee One shop, each in the districts of Jalpaiguri and Malda, was abolished as being unnecessary

48 **Consumption.**—The total quantity of ganja consumed in the Presidency amounted to 1,670 maunds 21 seers against 1,691 maunds 38 seers, showing a net decrease of 21 maunds 17 seers or 1 2 per cent

The consumption fell in 16 districts and increased in 10 districts, viz , Midnapore, 24-Parganas, Calcutta, Khulna, Mymensingh, Chittagong, Noakhali, Jalpaiguri, Rangpur and Bogra The increase in Khulna and Noakhali was nominal while in the other districts it ranged from 6 to 3 04 per cent

49 **Total revenue.**—The receipts for the year amounted to Rs 46,86,329 against Rs 47,67,560 in the previous year, the net decrease being Rs 81,231 The revenue from license fees decreased by Rs 60,693 and that from duty by Rs 20,918 while that from gola rent increased by Rs 380

50 **Incidence of taxation.**—The incidence of license fee per seer of ganja consumed was Rs 36 2 and that of duty Rs 32 5 The total taxation was Rs 68 7 per seer, as compared with Rs 68 7 in the previous year

* * * *

53 **Cultivation and outturn of ganja at Naugaon in Rajshahi.**—The following figures indicate the position regarding the operations of ganja cultivation in Naugaon in Rajshahi district during the last six years —

Year	Number of cultivators licensed	Area licensed	Total outturn	Average outturn per bigha		Total exports from Naugaon
		Bighas	Mds	Mds	Srs	Mds
1922 23	3 031	2 899	4 701	1	25	4 723
1923 24	3 681	2 899	8 041	2	38	3 935
1924 25	3 310	2 002	6 689	3	13	4 252
1925 26	3 099	1 761	4 598	2	24	4,961
1926 27	2 996	1 800	5 256	2	36	4 722
1927 28	3 010	1,706	6 073	3	15	4 709

The area sanctioned for cultivation during the year 1927-28 was 1,800 bighas and the average outturn per bigha was more satisfactory than in any of the preceding years

There was no case of surrender of any license and no license was cancelled during the year The area actually cultivated was 1,798 bighas 6 cattahs and 4 chittaks against 1,812 bighas 11 cattahs and 1 chittak of the last year

The prospect of the ganja was on the whole good till the second week of December last when the cessation of rain for a considerable period caused the spread of red spider and white ants on the ganja fields. Scarcity of water was keenly felt but was partly met by artificial irrigation. The rain during the latter part of January did some good to the standing crop. Some damage was done to the crop by insects and by plant diseases commonly known as "Hitkali" and "Amballa." The outturn of ganja notwithstanding the scarcity of water, was satisfactory. As I remarked in my report for the year 1926-27 the assurance of a proper price has increased the interest of individual cultivators to get as good an outturn as possible from the area cultivated.

* * * *

BHANG

58. **Licenses and revenue.**—The total number of retail licenses for the sale of bhang was 316 against the same number during the previous year. The total number of druggists' permits issued was 550 against 518 in the previous year. The total revenue from license fees and and duty amounted to Rs. 2,03,251 as compared with Rs. 1,85,310 in 1926-27—an increase of Rs. 17,941.

59. **Consumption.**—The principal demand for bhang was confined to most of the West Bengal districts. In most of the districts in East Bengal, the demand for its use as an intoxicant is very small. The total consumption in the Presidency amounted to 427 maunds 10 seers against 407 maunds 19 seers in the previous year—an increase of 19 maunds and 31 seers. The consumption increased generally in almost all the districts of the Presidency. To some extent this increase may be due to a substitution of this intoxicant for ganja which is a much more potent as well as a dearer drug than bhang. (In Calcutta or 24-Parganas increase was not more marked than in many other districts.)

60. **Exports.** Three maunds of duty paid bhang were exported from Hooghly to French Chandernagore against 3 maunds and 10 seers in the previous year. Twenty seven seers of duty paid bhang were issued from Comilla to the adjacent State of Tripura against 21 seers in the previous year.

61. **Abuse.**—No case of abuse of medicinal preparations prepared from bhang was reported during the year.

CHARAS.

62. **Licenses and revenue.**—There were 34 retail licenses for the sale of charas in the year under review against 34 in the previous year. The total number of wholesale licenses was 3 against 3 in the preceding year. The total receipts amounted to Rs. 3,26,948 as compared with Rs. 3,03,105 in 1926-27—an increase of Rs. 23,843. There was an increase of Rs. 19,185 under the head "License fees" and Rs. 4,658 under the head "Duty" due to increase in the consumption of the drug in retail shops by 5 maunds and 19 seers in the year under report.

63. **Import, export and consumption.**—The total quantity of charas imported into the Presidency was 71 maunds and 30 seers against 65 maunds and 30 seers in the previous year. The drug was, as usual, imported by the wholesale dealers of Calcutta and Birbhum direct from the Punjab and supplied to the retail vendors in the districts. The total issue to retail shops in the Presidency was 69 maunds and 37 seers as compared with 64 maunds and 18 seers in the preceding year, while the consumption in Calcutta amounted to 42 maunds and 14 seers against 40 maunds and 32 seers in the previous year.

With a view to check the increase in the consumption of the drug which is more potent than ganja or bhang, the Government have increased the retail selling price of the article from Rs. 140 to Rs. 160 per seer with effect from 1st April 1928.

Two maunds and 10 seers of charas were exported to French Chandernagore during the year against 1 maund and 4 seers exported during the previous year.

SECTION V.—Opium.

* * * *

64. **Restricted supply of opium.**—There was no change in the system of restricted supply of opium to shops in several districts in the Presidency.

65. **Consumption.**—The consumption of excise opium during the year under review was 994 maunds and 18 seers, as compared with 994 maunds and 32 seers in the preceding year.

Analysing the figures of consumption, district by district, it appears that consumption increased in 16 districts and decreased in 11 The increase was normal in most of the districts It has been reported by the Collectors of Dacca and Tippera that the increase in these districts was mostly due to its larger use amongst older people on account of its medicinal properties

66 **Licenses for retail sale.**—The total number of licenses issued for the retail sale of excise opium was 854, as compared with 861 in the previous year Seven shops were abolished, viz , 1 each in Calcutta, Murshidabad, Khulna, Mymensingh and Rangpur, and 2 in Bakarganj No new shop was opened

67 **Permits and licenses under the Opium and Morphia Rules.**—The total number of permits and licenses issued was 1,547 as compared with 1,457 in the previous year The number includes 34 licenses issued to manufacturing chemists, 598 to dispensing chemists, 59 to kabirajes and hakims, and 66 permits to permit holders (total 757 for intoxicating drugs) and 40 licenses issued to dealers, 620 to chemists, 44 to persons approved under Rules 21 (1) and 21 (2) of the Morphia Rules and 86 to persons authorised under Rule 22 of the same rules (total 790 for morphia drugs) The increase in the number of licenses was due to increase in the number of chemists and druggists in many districts in the Presidency

68 **Revenue.**--The total receipts amounted to Rs 47,98 712 as compared with Rs 48,15,300 in 1926-27

69 **Abuse of opium and morphia.**—The use of morphia as a substitute for opium does not appear to have been prevalent in any district The Calcutta Opium Enquiry Committee looked into the practice of administering opium to children and the result of their enquiry has been embodied in their report The report of the Committee is now under consideration of Government

* * * *

SECTION VI.—Cocaine.

* * * *

72 **Licenses and revenue.**—Four hundred and fifty-five licenses were issued during the year to chemists and druggists for the sale of cocaine on prescriptions of qualified medical practitioners as compared with 420 in 1926-27 Seventy-one permits for the possession of cocaine were issued free to managers of hospitals or dispensaries not under Government supervision Sixty permits were issued to qualified medical practitioners and dentists

73 **Preventive operations and illicit transactions** in cocaine have been dealt with in paragraph 75, Section VII of the Report

* * * *

SECTION VII.—Offences against the Excise and Opium laws.

* * * *

75 **Prosecutions and convictions.**—The prosecutions and convictions during the year did not show much noticeable fluctuation in regard to the number of cases and persons prosecuted and convicted, as the figures below would indicate —

	1926 27	1927 28
Number of cases		
Prosecuted	5 796	5 898
Convicted	5 498	5 622
Number of persons		
Prosecuted	6 134	6 179
Convicted	5 546	5,500

The increase in the number of persons prosecuted was noticeable in Calcutta (317), Hooghly (131), and Murshidabad (87) The main heads, under which the increase occurred in these 3 districts, were illicit manufacture of country spirit tari and pachwai, and in Calcutta, illicit trade in cocaine in addition

The decrease in the number of persons prosecuted was marked in Midnapore (254) Burdwan (112), Dinajpur (64) and Bankura (52)

The situation regarding excise offences in the Presidency was clearly explained by me in paragraphs 74 to 77 of my report for the year 1925-26 and the course and method of illicit practices in intoxicating articles continued to be the same during the year under report

The departmental officers successfully tackled offences under the Excise and Opium laws and regulations in most of the districts, and considerable help and co-operation were received from the Police and Customs officials towards the detection of excise offences The

arrangement regarding the division of work in Calcutta by the Excise Detective Staff, the Police and the Customs officials continued to work with success during the year under review

The total seizures of opium throughout the Presidency were as follows during the last 3 years —

	Mds	Srs
1925 26	41	8
1926 27	60	22
1927 28	39	15

Of the total quantity of opium seized during the year, 21 maunds and 19 seers were seized by the Excise Detective Staff in Calcutta, 5 maunds and 1 seer by the Railway Excise Staff, 2 maunds and 34 seers by the Excise Staff in the districts, 8 maunds and 28 seers by the Customs Detective Staff and 1 maund and 13 seers by the Police in Calcutta, Howrah and the 24-Parganas and the Government Railway Police, Howrah

The total seizures of cocaine during the last 3 years are noted below —

	Ozs	grs
1925 26	2,0[illegible]3	27
1926 27	701	50
1927 28	2 789	190

The seizure of cocaine during 1927-28 was very successful Of the total quantity seized during the year, 1,973 ounces were seized by the Customs officers on board the vessels in the port of Calcutta, 725 ounces were seized by the Calcutta Excise Detective Staff 72 ounces by the Excise Staff in the districts and 19 ounces were seized by the Police in Calcutta, Howrah and the 24-Parganas

ANNOUNCEMENTS

made by the Civil Service Commissioners with the authority of the Secretary of State for India in Council —

(*i*) Selected candidates will be allotted to the various provinces upon a consideration of all the circumstances, including their own wishes but the requirements of the Public Service will rank before every other consideration

(*ii*) An allowance of £300 a year, or, in the case of Selected Candidates possessing an Indian domicile, an allowance of £350 a year will be given to any candidate who passes his probation at one of the Universities or other Institutions that have been approved for the purpose by the Secretary of State for India in Council

In the case of Selected Candidates on probation for one year the allowance will be payable in four equal instalments on the following dates respectively December 24th after his selection March 25th, June 25th and after signature of Covenant on appointment to the Service

In the case of Selected Candidates on probation for two years the allowance will be payable in eight equal instalments, the first on the December 24th after selection, the second to the seventh on the six following quarter days and the eighth after signature of Covenant on appointment to the Service

The payment of the various instalments of the allowance except the final instalment, and, in the case of the two year probationers, the instalment payable at the end of the first year of probation, will be conditional on the receipt by the High Commissioner for India, through the authorities of the approved institution, of a certificate that the candidate had fulfilled up to date the requirements of the authorities and shown satisfactory progress.

If an Indian Government Scholar becomes a selected candidate for the Indian Civil Service, his scholarship stipend shall cease to be paid with effect from the 1st October of the year in which he becomes a selected candidate He may, however provided he has executed the agreement referred to in (*iii*) below be granted on or at any time after, the 1st October, an advance on account of the instalment of the allowance payable on the 24th December

---

* The compulsory subjects include riding, and a candidate who fails at the end of the period of probation to satisfy the Civil Service Commissioners that he has reached the minimum standard of proficiency in riding will be liable to have his name removed from the list of selected candidates

The whole probation must ordinarily be passed at the same Institution. Migration will not be permitted except for special reasons approved by the Secretary of State.

N.B.—The Secretary of State for India gives notice that the amount of the allowances will be reconsidered in 1929, with a view to a possible reduction with effect from the instalment payable in December, 1929.

(iii) Each Candidate will be required before receiving the first instalment of his allowance to execute an agreement binding himself and one surety jointly and severally to refund all moneys he may have received from the Secretary of State for India in the event of —

(1) his failure to pass the Final Examination within the time prescribed by the Regulations, and to satisfy the Civil Service Commissioners of his fitness for admission to the Indian Civil Service, or

(2) his subsequent failure to execute the usual covenant, and to proceed to India, as and when he shall be directed by the Secretary of State for India.

(iv) All candidates obtaining Certificates will be also required to enter into covenants, by which, amongst other things, they will bind themselves to make such payments as under the rules and regulations for the time being in force they may be required to make for the pensions of their families. The stamps payable on these covenants amount to £1.

(v) A First Class passage to India will be engaged for Selected Candidates with a view to their proceeding to India after they have signed their covenants.

(vi) Candidates appointed to the Indian Civil Service after undergoing one year's probation will be senior to those appointed in the same year after undergoing two years' probation. The seniority of candidates of each class *inter se* will be determined by the order in which their names appear on the lists referred to in clause (10) of the regulations.

(vii) A candidate who fails to satisfy the Civil Service Commissioners at the Final Examination held in any year will be definitely rejected unless the Secretary of State in Council shall, after reference to the Civil Service Commissioners, allow him to sit for re-examination in the subject or subjects in which he failed. In general a candidate who is allowed re-examination will be required to forfeit the whole or part of the final instalment of his allowance, but if it appears to the Secretary of State in Council, after reference to the Civil Service Commissioners, that his failure to pass the examination was due to circumstances wholly exceptional and beyond his control, such forfeit of his allowance will not be required.

(viii) 'Overseas pay' will not be admissible to Indian members of the Indian Civil Service selected at Open Competitive Examinations held in London in 1925 and subsequent years.

45. A Local Government may make rules laying down the principles governing the allotment to officers serving under its administrative control, for use by them as residences, of such buildings owned or leased by it, or such portions thereof as the Local Government may make available for the purpose. Such rules may lay down different principles for observance in different localities or in respect of different classes of residences, and may prescribe the circumstances in which such an officer shall be considered to be in occupation of a residence.

45A.—I. This rule applies, with effect from the 1st April 1924, to members of the services and to Government servants holding the posts included in the schedule to this rule and to Government servants who hold in a substantive capacity posts borne on the cadre of the services included therein.

II. For the purpose of the assessment of rent, the capital cost of a residence owned by Government shall include the cost or value of sanitary, water-supply and electric installations and fittings, but exclude the cost or value of the site (including expenditure on its preparation), and shall be either—

(*a*) the cost of acquiring or constructing the residence and capital expenditure incurred after acquisition or construction or, when this is not known,

(*b*) the present value of the residence.

NOTE.—The cost of restoration or special repairs shall not be added to capital cost or present value, unless such restoration or repairs add to accommodation or involve replacement of the existing type of work by work of a more expensive character.

Provided that—

(*i*) a Local Government may make rules prescribing the manner in which the present value of residences shall be determined;

(*ii*) a Local Government may make rules determining what expenditure is to be regarded, for the purpose of sub-clause (*a*) above, as expenditure upon the preparation of a site;

(*iii*) a Local Government may, for reasons which should be recorded, authorise revaluation of all residences of a specified class or classes within a specified area to be conducted under the rules referred to in proviso (*i*) above, and may revise the capital cost of any or all such residences on the basis of such revaluation;

(*iv*) the capital cost, howsoever calculated, shall not take into consideration (1) any charges on account of establishment and tools and plant other than such as were actually charged direct to the work in cases in which the residence was constructed by Government or (2) in other cases the estimated amount of such charges;

(*v*) a Local Government may for reasons which should be recorded write off a specified portion of the capital cost of a residence—

(*1*) when a portion of the residence must be set aside, by the officer to whom the residence is allotted for the reception of official and non-official visitors visiting him on business, or

(*2*) when it is satisfied that the capital cost as determined under the above rules, would be greatly in excess of the proper value of the accommodation provided;

(*vi*) in assessing the cost or value of the sanitary water-supply and electric installations and fittings, a Local Government may by rules determine what are to be regarded as fittings for this purpose.

III. The standard rent of a residence shall be calculated as follows —

(*a*) In the case of leased residences the standard rent shall be the sum paid to the lessor *plus* an addition determined under rules which a Local Government may make, for meeting during the period of lease, such charges for both ordinary and special maintenance and repairs, and for capital expenditure on additions or alterations as may be a charge on Government and for the interest on such capital expenditure, as also for municipal and other taxes payable by Government.

(*b*) In the case of residences owned by Government, the standard rent shall be calculated on the capital cost of the residence, and shall be either—

(*i*) a percentage of such capital cost equal to such rate of interest as may from time to time be fixed by the Secretary of State in Council *plus* an addition for municipal and other taxes payable by Government and for both ordinary and special maintenance and repairs such addition being determined under rules which a Local Government may make, or

(*ii*) 6 per cent per annum of such capital cost, whichever is less

(*c*) In both cases standard rent shall be expressed as standard for a calendar month and shall be equal to one-twelfth of the annual rent as calculated above, subject to the proviso that, in special localities or in respect of special classes of residence a Local Government may fix a standard rent to cover a period greater than one month but not greater than one year Where a Local Government takes action under this proviso standard rent so fixed shall not be a larger proportion of the annual rent than the proportion which the period of occupation as prescribed under Rule 45 above bears to one year

NOTE 1 —For the purpose of sub-clauses (*a*) and (*b*) above, the additions for both ordinary and special maintenance and repairs shall not include anything for the establishment and tools and plant charges except to the extent allowed under proviso (*ii*) to clause II

NOTE 2 —A Local Government may by rule permit minor additions and alterations, the cost of which does not exceed a prescribed percentage of the capital cost of the residence to be made during such period as the rule may determine, without the rent of the residence being increased

IV When Government supplies an officer with a residence leased or owned by Government, the following conditions shall be observed —

(*a*) The scale of accommodation supplied shall not, except at the officer's own request exceed that which is appropriate to the status of the occupant

(*b*) Unless in any case it be otherwise expressly provided in these rules he shall pay rent for the residence and such rent shall be the standard rent as defined in clause III above or 10 per cent of his monthly emoluments, whichever is less

(*c*) Nothing contained in clause (*b*) above shall operate to prevent a Local Government from—

The Annual Report of the Department of Agriculture for 1927 28

Administration.—Mr R S Finlow Director of Agriculture, Mr K McLean Assistant Director of Agriculture Dr G P Hector, Economic Botanist Mr D Dutt who occupied the post of Second Economic Botanist, and Mr F J Gossip Live Stock Expert held charge of their respective offices throughout the year Mr M Carbery Agricultural Chemist was on leave for 6 months during the year and Babu Gosto Behari Pal Assistant Agricultural Chemist performed his duties in his absence

The Western Circle was in charge of Mr J N Sarkar, officiating Deputy Director of Agriculture, and the Northern Circle was in charge of Mr A R Malik, a temporary officer throughout the year In the Eastern Circle Mr F Smith Deputy Director of Agriculture, was on leave for 5 months and his duties were carried out in his absence by Rai Sahib J K Biswas

The post of Headmaster Dacca Secondary Agricultural School which has now been raised to the status of a provincial service post, was held by Babu Raj Nath Roy This change of status was made in view of extra responsibilities involved in the training of teachers from high English and middle English schools which is now undertaken there in connection with the introduction of teaching on agricultural subjects in such schools

The Board of the Department of Agriculture and the Bengal Silk and the Bengal Cotton Committees met only once each during the year These are bodies to which Government attaches considerable importance and it is desirable that more frequent and regular meetings should be held

Since the close of the year under review, the Report of the Royal Commission on Agriculture has been received, and is under careful consideration A Conference of provincial representatives was called by the Government of India to consider the Commission's proposal and was held at Simla on 1st October 1928 Representatives of this province participated

2 **Agricultural education.**—The expensive scheme for an Agricultural Institute is still far off realisation owing to want of funds The Royal Agricultural Commission have recommended such a scheme and have also given their decision as to what they consider to be a suitable standard of qualification for entrance to the Institute, viz, the I Sc

As in the previous year, the Secondary Agricultural School at Dacca was far from full There were only 12 students in the first year of whom 4 left during the session The Minister in charge is glad to observe that 7 Demonstrators were put through a "refresher" course of one year with beneficial results The training of teachers in connection with the scheme referred to in paragraph 1 began at this school towards the close of the year under report It is intended to admit 15 such teachers each year and the course will last for two years It is obvious that some years must elapse before any conclusion can be drawn as to the success or otherwise of this scheme, for the teachers first have to be taught and then the effects of their teaching over a period of years will have to be watched It is to be observed that the Royal Agricultural Commission recommend this which is known as the "Punjab" system of education, i e, the ordinary curriculum combined

with arrangements to give it an agricultural bias, in preference to the purely vocational system to which Loni in Bombay has given its name

It is gratifying to note that success continues to attend the primary schools which have been opened at Amriti Piasbari and Kumarpur in connection with the sericultural nurseries

The results of attempts to induce the sons of cultivators to come to the departmental farms for instruction continue to be disappointingly meagre Yet it is difficult to see how real progress in modern methods can be attained unless such persons are willing to work in a practical way, i e, with their own hands On the other hand, those engaged in sericulture showed great eagerness to learn new methods There was a marked increase in the numbers of those who came forward for such instruction at all schools except Berhampore and Kumarpur The numbers thus under training at Piasbari increased from 26 to 115 and at Amriti from 32 to 62

3 **Research and experiment.**—Work progressed on much the same lines as in the previous year both at the Central Research Station at Dacca and at the different district farms where attention is devoted to local problems, while the research students of Dacca University under took the investigation of certain problems which were referred to them

Dr G P Hector's admirable work on rice continues, and he has evolved some promising strains by crossing early and late transplanted rices one in particular being mentioned which ripening on 6th November, yielded 39 maunds to the acre The Director is able to state that the work of popularising the departmental paddies seems to be making really satisfactory progress

Attention continues to be given to fodder crops Mr Finlow states that there is a type of *bajra* under investigation which promises to oust even Japanese millet

The preparation and use of artificial farm-yard manure was extended to nearly all the farms Dacca Central Farm made 6 000 maunds of artificial farm yard manure, as against 3,000 maunds last year, and most farms increased their output

As regards sugarcane, the popularity of C O 213 increased and out of 750,000 cuttings distributed 650 000 were of that variety

The Director has some extremely interesting observations to make on the subject of irrigation He points out that the problems is not so much one of distributing water (as in the Punjab) over tracts which are otherwise waterless, but of supplying a comparatively small quantity at the right moment An irrigation organisation on a com paratively small scale, such as a pumping apparatus to draw water from a *bil* or river, or a tube well, could supply sufficient moisture to rectify the failure of the monsoon to supply its moisture at a particular season The extra inch or two at the end of the monsoon which means the difference between a good and an indifferent paddy crop could thus be supplied Similarly, comparatively inexpensive plant could be utilised to furnish water for the fodder crops which are being recognised more and more to be a crucial factor in the improvement of cattle and which could thus be grown at a time when the land is otherwise lying idle

It is evident that this matter of irrigation is exciting increased attention and the department is evidently alive to the possibilities of the situation

The Director's remarks about the *Haor* tract in Mymensingh are interesting Water hyacinth has rendered the cultivation of deep water paddy unremunerative But the cultivators have come forward with the suggestion that *boro* paddy, a remunerative and high yielding crop, could be grown in the dry season by means of a system of pump ing from the rivers The Director of Agriculture has made arrange ments for carrying out an experiment next cold weather, the depart- ment applying the pump and the channels being dug by the tenants and the proprietor The results of this experiment will be important, both in respect of the particular problem to solve which they are being initiated, and also in respect of the information they are expected to furnish as regards this class of irrigation in general

4 **Agricultural stations and farms.**—Dinajpur, Malda and Maina guri, have come practically into full working order At Rangamati reclamation is not yet completed Work is in progress on the build- ings and on reclamation at the Krishnagar Farm There are great possibilities at the latter place where the whole of the great area of the "Company Began" has been handed over to the Agriculture Depart- ment

A striking proof of the eagerness of the local inhabitants to learn improved methods of agriculture is to be found in the collection locally of Rs 2,200 for the establishment of a small demonstration farm at

Rajbari in Faridpur district, which was largely due to the energy of Rai A K Mukherjee Bahadur, the then Subdivisional Officer

The Kalimpong Farm will, with effect from the current year, come more definitely under the control of the department though the Homes and their founder will still continue to be closely connected with it The Governor, acting with his Minister, desires to take this opportunity of acknowledging the excellent work that this farm, with the influence of Dr Graham behind it, has done in the past in spreading better seeds, especially maize, wheat and mustard and better methods of farming in the Darjeeling district

An interesting experiment is going on in Faridpur which was initiated by Mr Burrows, lately Collector of that district, aided by the District Agricultural Officer, whereby *bhadralok* lads after training on the Faridpur Farm are to be settled on plots of khas-mahal land The scheme has not yet been in operation long enough to come to any conclusion as to its possibilities

The Hon'ble Minister desires again to refer with satisfaction to the excellent pioneer work that continues to be carried out on the farms of Rai Kumud Nath Mullick Bahadur at Ranaghat, Kumar Sarat Kumar Ray at Dayarampur, and many others

5 *Seed distribution*—Two thousand and sixty-nine maunds of guaranteed departmental jute seed the whole amount raised, were sold as against 3 708 in the previous year As before the Indian Jute Mills Association guaranteed the loss, if any which might fall on the Government selling agent through not being able to sell the whole of the amount raised but they were not called upon to fulfil their guarantee The reason for the smaller quantity produced was that in the previous year the selling agent was left with some quantity on his hands The producers therefore, were asked to produce less, and this reduced amount became still less owing to an unfavourable season

The Director refers with satisfaction to the success of the experiment, which was made possible by the generosity of the London Jute Association, of distributing free packets of departmental jute seed The Association made a payment of £1,500 which was spent partly in 1927 and partly in the succeeding year As Mr Finlow points out, the use of these higher yielding strains means that 25 per cent more of the land, which was formerly under local varieties, is set free for other food or fodder crops

Two hundred paddy-seed farms were in operation during the year There were 270 in the previous year and it has as was anticipated last year been found necessary to curtail the number to ensure more satisfactory working Orders for 5 265 maunds of seed paddy were received, of which nearly 5 000 maunds were supplied 74 per cent of this amount being from private growers Co-operative Societies play a part in this work of seed distribution which, if extended, will be invaluable Thus the Naogaon Co-operative Bank purchased 160 maunds of *aus* seed and 700 maunds of *indrasail and dudshar* to distribute among their members The high yields obtained from departmental *aus* paddy which Dr Hector reports ranging from 37½ to 45 maunds per acre or increases of from 3½ to 9 maunds over the local varieties, make the interest thus displayed not unnatural

6 *Cattle breeding*—The scheme drawn up by Mr Gossip to which reference was made in last year's review is in process of being put into operation It has two branches—(*i*) a premium bull system and (*ii*) an arrangement by which Co-operative Societies either of the ordinary type or formed specially for the purpose will purchase approved bulls and maintain them under supervision for breeding purposes The district selected for the first working of the scheme is Malda where certain local people have shown great interest in its details The popularity of good bulls is illustrated by the fact that more than thrice as many cows were covered by departmental bulls this year as compared with the previous year, viz, 769 against 234 The supply of departmental bulls in Bengal is far short of the demand, but provision has been made in the budget in the current year for increasing the herd at Dacca

A most important event is the strides that have been made in the making of pit-silage since Mr Gossip has taken charge He has proved that from October to June as good pit-silage can be made in Bengal as anywhere else This means that succulent feed can be made available during the dry months to the great advantage of the live-stock It is gratifying to learn that in consequence of the manufacture of silage, Rangpur Farm instead of having to purchase fodder has had surplus paddy straw for sale As the Agricultural Commission point out in Chapter VII of their report, the cultivation and storage of fodder crops and not the oft-advocated provision of grazing grounds, is the

key to increased fodder supply, and that the agriculturists know it is proved by the Director's statement that the cultivation of these crops is visibly on the increase

A Catttle Committee was formed during the year to co-ordinate the work of the different departments of Government which are concerned in this matter

A scheme has been administratively sanctioned by Government for setting up a properly equipped dairy at Dacca Farm with modern buildings When funds are available for this the herd, now housed in old and unsuitable quarters, will be moved there and it will be possible to instruct both Government's own officers and outside pupils as well in the correct methods of cattle management and dairying The increasing interest in the problem of milk supply in large towns makes the implementing of this scheme a matter of prime importance

7 **Agricultural associations.**—As in previous years, the quality of work accomplished by the different associations varied to a marked degree Government have under consideration proposals for a re-organisation of these associations so as to arouse a keener interest among the members and to ensure that the grants given to the associations are spent to better advantage

8 **Propaganda and exhibitions.**—It is regrettable that want of funds has prevented the appointment of the 7 District Agricultural Officers whose entertainment was administratively approved by Government two years ago The Hon'ble Minister is satisfied that the department is fully alive to the need of active propaganda As the Royal Commission has observed in its report, the best propaganda is to be found in the work of the demonstrator growing his improved seed at the door of cultivator To this might be added the valuable results to be obtained from the ocular demonstration of plots grown under the share system by cultivators themselves as at Kishoreganj, Jamalpur and elsewhere, where one of the conditions on which they hold the land is that they shall grow departmental seeds In connection with propaganda the Nadia District Board deserves special mention It organised a touring exhibition containing Public Health, Agriculture and Veterinary Sections which was sent round most parts of the district in December 1927—January 1928 This venture cost the District Board about Rs 2,200 which includes the price of a cinema machine Such enterprise is an example of what can be done and its imitation is commended to other local bodies as well worthy of imitation

Much may be done through Union Boards and the Governor acting with his Minister will watch with interest the progress of the experiments in this direction in Faridpur which were initiated by Mr Burrows when Collector of that district

The Co-operative Department is contributing appreciably to the work of popularising improved seeds and the storage facilities which co-operative societies are in a position to provide are a valuable adjunct to the work The Director of Agriculture also visualises the co-operative purchase of manures and implements, as also the joint financing of irrigation work, as a likely feature of the future

The training of co-operative officers in agricultural matters by short courses at Dacca Farm is an excellent move which has the hearty approval of Government, and as the Director of Agriculture observes, the corollary to this, i e , the training of Agricultural Officers in co-operative principles, can be productive of nothing but good

Exhibitions are a most valuable vehicle for propaganda work, and full use was made of them Lectures and demonstrations were given by officers of the department and the magic lanterns for which funds have been provided in the current year, will form a further means of bringing the work of the department in an attractive form to the notice of the public The Eastern Bengal Railway exhibition train was again run, and was as in the previous year a great success The cinema films which are under preparation will it may confidently be expected be invaluable

9 **Sericulture.**—The nature of the season characterised as it was by an unusually prolonged drought together with frost in January, had an unfavourable effect on the mulberry crop, and consequently on the prices obtainable for seed cocoons Though the output therefore of the 12 Government nurseries increased from 21,083 to 22,512 *kahans*, the prices realised were only Rs 56,096 as against Rs 62,192 in the previous year

Attention continues to be given to the best methods of increasing by scientific manuring the output of leaf on the nurseries, and with success, and it is hoped that a stage may be reached when the purchase of

outside leaf may become unnecessary The yield of leaf was increased by 5,000 maunds or over 60 per cent this year Further reports about the success of the use of tree-mulberry in place of the bush variety which has hitherto been popular will be awaited with interest The advantage of the tree variety appears to be its greater powers of resistance to drought and its capacity for producing leaf irrespective of the season

The outturn of seed cocoons by selected rearers fell during the year under report from 19,000 to 15,000 *kahans*, a reduction which is explained by the very unfavourable seasonal conditions A sensible step was sanctioned by Government during the year in the closing of the sericultural school at Rajshahi and the starting of one at Piasbari in Malda district Local interest as evidenced by the number of local students, had long been at low ebb in the former place and conditions were far less favourable to proper instruction than they are in Malda Disappointing as this decision must have been to those who, like Professor H D Mukerji, really did take an interest in the work, the Minister feels that it is generally recognised as a right one

Demonstration work in the villages was continued, especially in the district of Malda and there are unmistakable signs that the work is bearing fruit in the shape of improved methods of rearing and the use of better houses and appliances

10 The Government of Bengal (Ministry of Agriculture) have read with pleasure the list of names submitted by the Director of Government officers and private persons who have rendered valuable assistance in the cause of agriculture during the past year It would be invidious to particularise

The Director himself and his staff deserve congratulation on the completion of another year of valuable work, and for the very prompt submission of the annual report

In conclusion the Minister feels bound to state that he has to discharge the duty of reviewing the administration of a year in the policy or supervision of which he had no hand and so naturally he had to proceed on records as he found them The difficulties of his delicate task have been further enhanced by the fact that he had to undertake this duty even before he had a reasonable time to shape his own policy

By order of the Government of Bengal,
(Ministry of Agriculture),

Secretary to the Government of Bengal
